## **REPORT OF THE ACCOUNTANT-GENERAL**

### **1.0 OVERVIEW**

The Accountant-General is the administrative head of the Treasury, which operates under the aegis of the Ministry of Finance and Economic Development.

The key responsibilities of the Accountant-General are:-

- (i) to prepare the statutory financial statements of the government and to ensure that accounting systems fully respond to government's needs for proper recording and accounting of financial transactions and for the preparation of financial statements;
- (ii) to monitor the cash flows of government and to ensure availability of cash for meeting government's payment obligations; and
- (iii) to manage the dispensing of public service benefits – civil service pensions, passage benefits and advances for the purchase of motor vehicles – and to ensure payments are effected in a timely manner and according to prescribed rules and regulations.

During the year, the Treasury has actively participated in the implementation of major government projects which aim at improving public sector financial management, namely, the E-Payment, the E-Budgeting and the Human Resource Management Information System (HRMIS) projects. The HRMIS consists of a Payroll Module which will replace the current government payroll system. The new payroll system will make extensive use of information technology, and its integration with other financial systems, including the Treasury Accounting System, is expected to bring improvement in operational efficiency and to better meet information needs of stakeholders. The Treasury will have a key role in the management of the new payroll system.

The presentation of the accounts of government has been enhanced by the recognition of the International Monetary Fund (IMF) transactions in the Statement

of Assets and Liabilities as at 31 December 2014. Further improvement will be made to the accounts in the following fiscal years through recognition of other assets and liabilities of government.

The Treasury has also continued its active pursuit of delivering better services to customers by setting up a customer service counter which operates as a “*one-stop shop*” in respect of public service benefits. Customers – civil service pensioners, public officers, heirs of deceased pensioners/public officers – have benefitted through easier access to information, and quicker processing of applications and response to queries.

The Finance and Audit Act requires the Accountant-General to prepare annual financial statements showing the financial position of the Republic of Mauritius as at close of every fiscal year. For the fiscal year 2014, the accounts were closed on 20<sup>th</sup> February 2015 and the financial statements were submitted to the Director of Audit within the period prescribed under the Finance and Audit Act.
