#### **REPORT OF THE ACCOUNTANT-GENERAL**

#### 1.0 OVERVIEW

The Accountant-General is required as per Section 19(1) of the Finance and Audit Act (FAA) to prepare the annual financial statements (FS) of the Republic of Mauritius and these statements should present fairly the financial transactions during the year and the financial position as on the last day of every financial year.

In order to fulfill the above responsibilities, the Accountant-General has to ensure that:

- 1. Accounting systems, including Chart of Accounts, respond to the needs of the Government and function effectively; and
- 2. The Treasury Accounting System comprehensively supports Government-wide budget execution for proper accounts to be kept and maintained.

The above responsibilities were discharged as required. The accounts for the financial year (FY) 2020-2021 were closed on 30 September 2021 and the FS were submitted to the Director of Audit within the period prescribed by FAA.

The framework adopted for the preparation of the FS is stipulated in FAA Section 19(3A) which is, in compliance with International Public Sector Accounting Standards (IPSAS) as far as possible. The Government has continued with the implementation of accrual-based IPSAS with new items recognised for the first time in the FS under review and continuous incremental enhancements being made to existing items and disclosures where relevant. It is expected that full compliance with IPSAS will be achieved in the near future. The new items and enhancements made in the current FS are as follows:

#### Items recognised for the first time:

- Financial Guarantee Liability;
- Receivables from Exchange Transactions; and
- Expected Credit Loss on Other Revenues.

#### Enhancements to existing disclosures:

- Disclosure on the classification basis adopted in the approved Budget;
- Disclosure regarding valuation basis of State Land, Roads and Bridges;
- Disclosure on Revenue; and
- Disclosure on Operating Leases.

The full implementation of accrual-based IPSAS includes consolidation of all public sector entities, a new and challenging responsibility for the Accountant-General. This exercise is planned to be carried out in a phased manner with all entities forming part of the General Government to be consolidated in the FS of the Government for the FY ending 30 June 2022 and all entities in the Public Sector as from FY ending 30 June 2023.

Much effort has been put into the planning of this task and it is expected that same be completed with the collaboration of all stakeholders.

# **CERTIFICATE OF THE DIRECTOR OF AUDIT ON THE ANNUAL STATEMENTS OF GOVERNMENT**

#### **Report on the Audit of the Annual Statements**

#### Opinion

I have audited the Annual Statements of the Government of the Republic of Mauritius, submitted in accordance with Section 19(1) of the Finance and Audit Act, which comprise the statement of financial position as at 30 June 2021, and the statement of financial performance, the statement of changes in net assets or equity, the statement of cash flow, the statement of comparison of budget estimates and actual amounts for the year then ended, and other Statements as required under Section 19(3) of the Act, and notes to the accounts, including a summary of significant accounting policies.

In my opinion, the accompanying Annual Statements give a true and fair view of the financial position of the Government of the Republic of Mauritius as at 30 June 2021, and of its financial performance and its cash flows for the year then ended in accordance with Section 19(3A) (a) of the Finance and Audit Act, and the accounting basis as disclosed in Note 2.1.B (i) to the accounts.

#### **Basis for Opinion**

I conducted my audit in accordance with International Standards of Supreme Audit Institutions (ISSAIs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Annual Statements* Section of my report. I am independent of the Ministries and Government Departments in accordance with the INTOSAI Code of Ethics, together with the ethical requirements that are relevant to my audit of the Annual Statements in Mauritius, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the Annual Statements of the current period. These matters were addressed in the context of my audit of the Annual Statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters. I have determined that there are no key audit matters to communicate in my report.

# Responsibilities of the Accountant General and Those Charged with Governance for the Annual Statements

The Accountant-General is required, under Section 19 of the Finance and Audit Act, to prepare and submit Annual Statements within six months of the close of every fiscal year, and is responsible for such internal control necessary to enable the preparation of Annual Statements that are free from material misstatement, whether due to fraud or error.

Those charged with governance in Ministries and Government Departments are responsible for maintaining proper accounting records and providing to the Accountant-General, for the purpose of the Annual Statements, information that are accurate.

#### Auditor's Responsibility for the Audit of the Annual Statements

I am required under Section 20 of the Finance and Audit Act to issue a certificate of audit on the Annual Statements of the Government of the Republic of Mauritius, submitted in accordance with Section 19 of the Finance and Audit Act, within eight months of the close of every fiscal year.

My objectives are to obtain reasonable assurance about whether the Annual Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Annual Statements.

As part of an audit in accordance with ISSAIs, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the Annual Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Ministries' and Departments' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Evaluate the overall presentation, structure and content of the Annual Statements, including the disclosures, and whether the Annual Statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the Annual Statements of the current period and are therefore the Key Audit Matters. I describe these matters in my auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

#### Management's Responsibility for Compliance

Management is responsible for controlling expenditure on any service in respect of which public funds have been appropriated and for collecting revenue and paying that revenue into public funds, as well as putting in place a sound system of internal control designed to provide reasonable assurance regarding, amongst others, the effectiveness and efficiency of operations, the safeguarding of assets and data, the prevention of fraud and irregularities, and the compliance with applicable laws, regulations and instructions, policies and established procedures.

#### Finance and Audit Act

I am required under Section 16 of the Finance and Audit Act to satisfy myself that:

- (a) all reasonable precautions have been and are taken to safeguard the collection of public money;
- (b) all laws, directions or instructions relating to public money have been and are duly observed;
- (c) all money appropriated or otherwise disbursed is applied to the purpose for which Parliament intended to provide and that the expenditure conforms to the authority which governs it;
- (d) adequate directions or instructions exist for the guidance of public officers entrusted with duties and functions connected with finance or storekeeping and that such directions or instructions have been and are duly observed; and
- (e) satisfactory management measures have been and are taken to ensure that resources are procured economically and utilised efficiently and effectively.

I am also required, under Section 20 of the Finance and Audit Act, to submit a Report upon my examination and audit of the accounts of Government.

In my opinion, except for the matters mentioned in my Report for the financial year 2020-21, nothing has come to my attention that causes me to believe that the financial management principles laid down at Section 16 of the Finance and Audit Act have, in all material respects, not been adhered to.

#### **Public Procurement Act**

I am required to state whether the provisions of Part V of the Public Procurement Act regarding the bidding process have been complied with.

In my opinion, except for the matters mentioned in my Report for the financial year 2020-21, the provisions of Part V of the Act have been complied with as far as it could be ascertained from my examination of the relevant records.

### 1. GENERAL INFORMATION

The Republic of Mauritius is an island found in the East Coast of Madagascar. It got its independence on 12 March 1968. The country has a Westminster type of Parliamentary Government. The core vision of Mauritius in 2030 is:

- to place the country among the High-Income Countries of the world;
- to become a country where the society and the economy are inclusive, with a better sharing of prosperity, a narrower gap between the poor and rich and no families and children living in absolute poverty; and
- where the population across all strata enjoy a higher quality of life and a higher standard of living in a clean and safe environment.

Under the Finance and Audit Act, it is the responsibility of the Accountant-General to prepare the accounts of the Government within six months of the close of every fiscal year.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 2.1 Basis of Preparation

### A Estimates

The Estimates (Budget) of the Government is appropriated by votes of expenditure on a cash basis, except for 'cost of borrowings' which is appropriated on an accrual basis and 'carry-over of capital expenditure' where amount earmarked in a fiscal year is carried over to a period not exceeding 3 months in the following fiscal year. The Estimates is classified by both economic and functional classifications based, as far as possible, on the Government Finance Statistics Manual.

The Estimates is for the Budgetary Central Government, which includes Ministries and Government Departments. Transfers to Special Funds are appropriated and included as expenditure in the approved Estimates in the year of expenditure. However, the revenue and expenditure of the Special Funds are not included in the approved Estimates.

The approved Estimates covers the fiscal period from 1 July 2020 to 30 June 2021.

### **B** Financial Statements

(i) Following the amendments made to the Finance and Audit Act in July 2017, the financial statements of the Government for the financial year 2022-2023 and onwards will have to be prepared in compliance with International Public Sector Accounting Standards (IPSAS).

For the financial year 2020-2021, the financial statements have been prepared in accordance with Section 19 (3A)(a) of the Finance & Audit Act 1973, as subsequently amended, i.e. as far as possible in compliance with IPSAS and present fairly the financial transactions and financial position of Government as at 30 June 2021.

Accordingly, the elements of the financial statements have been accounted for as follows:

(ii) The accounting policies have been applied consistently throughout the year. Where necessary and where it is practicable, comparative figures have been restated to conform to changes in presentation, or in accounting policies in the current year.

# 2.2 Reporting Entity

The accounts are for the Budgetary Central Government of the Republic of Mauritius, which comprises Ministries, Government Departments, Special Funds bank balances and investments as per Statement H – Statement of Special Funds deposited with the Accountant-General.

# 2.3 Reporting Period

The accounts cover the financial year of the Government of Mauritius from 1 July 2020 to 30 June 2021.

### 2.4 Authorisation Date

The financial statements were authorised for issue on 29 December 2021 by Mr. S.D. Ramdeen, the Accountant-General.

#### 2.5 Foreign Currencies

(i) Functional and Presentation Currency

The accounts are presented in Mauritian Rupees (Rs), rounded to the nearest rupee, which is also the functional currency.

### (ii) Transactions and Balances

Transactions in foreign currencies are initially translated at the foreign exchange rate at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at yearend exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Financial Performance. Non-monetary assets and liabilities measured at historical cost in foreign currencies are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at reporting date.

### 2.6 Cash and Cash Equivalents

Cash and cash equivalents comprise cash in hand, cash remitted to Ministries/Departments, cash balances with banks, both local and overseas, deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value and cash held on behalf of Special Funds.

#### 2.7 Financial Assets

(i) Receivables from Non-Exchange Transactions and Receivables from Exchange Transactions

Receivables from Non-Exchange Transactions comprise receivables from taxation, contribution sociale généralisée, and fines, penalties and forfeits.

Receivables from Exchange Transactions comprise receivables from finance income, licences, rent & royalties, sales of goods and services and other revenue.

These are recognised when it is probable that the future economic benefits associated with the asset will flow to the Government and can be measured reliably. Receivables are accounted for on an accrual basis.

### Impairment of Receivables

A loss allowance for expected credit losses (ECL) is recognised on receivables from exchange transactions. An impairment gain or loss is recognised in Statement of Financial Performance representing the amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised.

However, for non-exchange transactions, assessment has not been made to determine impairment with respect to receivables from non- exchange transactions.

(ii) Loans and Advances

Loans and Advances are recognised at cost. Loans are the outstanding balances due by Statutory and Other Bodies and Advances are made under the authority of warrants issued under Section 6(1) of the Finance and Audit Act and are recoverable within specified periods.

(iii) Investments

These represent mainly investments made out of monies standing to the credit of the Consolidated Fund and Special Funds in accordance with Section 3(4)(a) and 9(3)(a) of the Finance and Audit Act.

Initial Recognition of Investments

On initial recognition, investments are measured at fair value.

Classification and Measurement Basis of Investments

The table below shows the classification and measurement basis for the different categories of investments:

Category	Classification and Measurement Basis
Equity Investments (Quoted Investments, Unquoted	Fair Value Through Surplus or Deficit
Investments, Equity Participation)	
Redeemable Preference Shares	Fair Value Through Surplus or Deficit
Other Investments (Fixed Deposits)	Cost

# (a) Equity Investments and Redeemable Preference Shares Recognised at Fair Value Through Surplus Or Deficit

Investments classified as fair value through surplus or deficit are measured at fair value at the end of each financial year, with any gains or losses on remeasurements recognised in surplus or deficit. Any dividend earned on these investments is also recognised in surplus or deficit.

### (b) Other Investments Recognised at Cost

Other investments (fixed deposits) held by Government at banks/financial institutions have been reported at cost. The fair value of these investments approximate its carrying amount.

(iv) Other Financial Assets

### (a) IMF SDR Deposits

IMF SDR Deposits represent international reserve assets allocated to Mauritius by the IMF (SDR Holdings) and held at the Bank of Mauritius.

IMF SDR Deposits are translated at year-end exchange rate with any gains/losses arising on re-measurements recognised in the Statement of Financial Performance in the period in which they arise.

#### (b) IMF Reserve Tranche Position

The Reserve Tranche Position represents that portion of the quota of the Republic of Mauritius in IMF that has been paid in reserve assets, i.e. SDRs or foreign currency acceptable to the IMF.

Reserve Tranche transactions, i.e. subscriptions, purchases and sales, are initially translated at the exchange rate at the date of the transaction. At year-end, the SDR Reserve Tranche Position is translated using year-end exchange rates and any gains/losses recognised in the Statement of Performance as foreign exchange gains or losses.

### 2.8 Inventories

Inventories comprise mainly of distributable items and consumables. Inventories are measured at lower of cost and current replacement cost. Donated inventories from non-exchange transactions for nil or nominal consideration are initially measured at its fair value at the date of receipt.

The cost has been determined using First In First Out Basis (FIFO).

### 2.9 Prepayments

Prepayments are recognised as assets when payment for goods or services has been made in advance of obtaining a right to access those goods or services.

### 2.10 Property, Plant and Equipment

Property, Plant and Equipment include the following:

- (a) Infrastructure, Plant and Equipment;
- (b) Land and Buildings; and
- (c) Assets under Construction.

Furniture, Fixtures and Fittings are currently being expensed.

(i) Infrastructure, Plant and Equipment

On initial recognition, Infrastructure, Plant and Equipment are stated at cost or deemed cost. Subsequently, they are stated at cost less accumulated depreciation. Infrastructure, Plant and Equipment represent the cost of the following:

- a) Infrastructure Assets:
  - Roads classified roads/motorways

Valuation Methodology

The value of the roads as at 30 June 2020 has been estimated by the Road Development Authority based on the cost of constructing a road to the following standard:

SN	Road Type	Cost per km (MUR)
1	Motorways	120M
2	A Roads	75M
3	B Roads	65M

The value of roads constructed after 30 June 2020 has been measured at cost.

- Dams
- Bridges

Valuation Methodology

The value of bridges as at 30 June 2020 has been estimated by Road Development Authority by using the benchmark of recently constructed bridges of similar nature and size.

The value of bridges constructed after 30 June 2020 has been measured at cost.

- Stadiums & Gymnasiums and
- Other Structures.

Infrastructure assets do not include assets acquired by the Government on behalf of other public sector bodies.

- b) Transport Equipment:
  - Ships/Vessels;
  - Aircrafts/Helicopters; and
  - Other Vehicles.
- c) Other Machinery & Equipment:
  - Medical Equipment;
  - Office Equipment; and
  - Machinery.

#### (ii) Land and Buildings

Land represents the estimated value of State Lands (main land) and Outer Islands. The valuation methodology is as follows:

#### State Lands acquired before 30 June 2018

These have been estimated by the Government Valuation Department. The direct comparison method has been used to some extent based on freehold sales evidence for various uses in the different regions of the island.

The methodology adopted for State Land leased by the government for various purposes is a reduced rate of 1/3 of freehold value. This rate was applied to these leased properties based on use such as residential, agricultural, industrial and commercial.

In cases where the State Land was leased for industrial use such as hotel, the rate per arpent obtained through analysis of sale of leasehold rights of State Land along the Pas Geometriques was adopted.

Forestry Lands, Parks and Gardens and Guardienages and Islets used as Nature Reserves were valued at a uniform rate of Rs 200,000/Arpent.

Public Beaches and Islets were valued based on rent paid per annum under the State Land Act and were capitalised in perpetuity at rate of 8%.

For Islets leased as hotels i.e industrial site, valuation has been carried out based on sales of leasehold rights along the Pas Geometriques.

For grazing land, 1/3 rate of market value of agricultural land as per region has been used for assessment.

For Ex Tea Land, Agricultural Stations, MSPA Lands and land settlement, valuation has been based on freehold agricultural sales evidence according to different regions.

For National Parks used as touristic sites, a rate of Rs 2.5M/Arpent has been used based on previous valuation in respect of financial year 2016/2017.

For campement sites, valuation has been carried out based on Pas Geometriques sales evidences (leasehold sites).

In respect of land acquired by Government for different purposes, the amount of compensation reported to the Ministry of Housing & Land Use Planning has been used.

State Lands acquired after 30 June 2018

These have been recognised at cost.

Outer Islands

These have been recognised at the value estimated by the Government Valuation Department.

Buildings represent residential and non-residential buildings, whether purchased, constructed or upgraded. Buildings are initially recognised at cost and subsequently at cost less accumulated depreciation.

(iii) Assets under Construction

Assets in the course of construction are recognised at cost.

Depreciation of these assets commences when the assets are ready for their intended use.

(iv) Donated Assets

When an asset is acquired in a non-exchange transaction for nil or nominal consideration, the asset is initially measured at its fair value at the date of acquisition and subsequently depreciated over its remaining useful life.

### (v) Depreciation

Depreciation on assets is charged on a straight-line basis over the useful life of the asset. Full year depreciation is charged in the year of acquisition and none in year of disposal. Depreciation is charged at rates calculated to allocate the cost or valuation of the asset over its remaining useful life, as follows:

Buildings	50 years
Infrastructure Assets	10 – 50 years
Transport Equipment	8 – 25 years
Other Machinery & Equipment	4 – 20 years

Land is not depreciated.

#### (vi) Borrowing Costs

Borrowing costs are recognised as an expense in the period in which they are incurred.

(vii) Derecognition

Property, plant and equipment and/or any significant part of an asset are derecognised upon disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in surplus or deficit when the asset is derecognised.

#### 2.11 Intangible Assets

Intangible assets include licenses, computer software and IT projects acquired, developed or under development.

Intangible assets acquired separately are initially recognised at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any impairment losses. Internally generated intangible assets are not capitalised and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred.

Intangible assets are amortised using the straight-line method over a period of 8 years. Full year amortisation is charged in the year of acquisition. Intangible assets which are still under development phase are recognised at cost and no amortisation is charged until the asset is available for use.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset. Any surplus or deficit arising from the disposal is recognised in the statement of financial performance.

#### 2.12 Financial Liabilities

#### (i) Payables

Payables are of a short-term nature and are recognised at cost as the effect of discounting is not considered material. Payables comprise the following:

- (a) 'Cost of Borrowings' consist of Accrued Interest on Re-opening of Government Bonds and Treasury Notes;
- (b) 'Accounts Payable' which are expenses incurred by the Government during the financial year but not yet paid as at year end;
- (c) 'Retention Money on Contracts' which is a percentage of the amount certified as due to the contractor on an interim certificate, that is deducted from the amount due and retained by the Government; and
- (d) 'Carry-over of Capital Expenditure' which represents the balance of the provision earmarked for capital projects in the current financial year payable within 3 months of the close of the financial year as per Section 3A of the Finance and Audit Act. The amount recognised in the Statement of Financial Position represents that portion of the total provision carried-over in respect of which goods were received or works completed by end of the financial year.

### (ii) Deposits

Deposits are money deposited with the Government under Section 8 of the Finance and Audit Act and are recognised at their carrying amounts.

#### (iii) Government Debt

### a) Domestic and External Debts

Initial Recognition and Measurement

Upon initial recognition, Domestic and External Debts are measured at fair value.

For concessionary loans, the difference between the loan proceeds and the fair value on initial recognition is accounted as revenue from non-exchange transactions.

#### Subsequent Measurement

#### • Treasury Bills and Treasury Certificates

Treasury Bills and Treasury Certificates are measured at amortised cost which is equivalent to the amount payable at maturity to the holders of these instruments, due to the short term nature of these liabilities.

• Treasury Notes, Government of Mauritius Bonds, Inflation-Indexed Bonds, Other Long-Term Securities, Domestic Loans and External Debts

Subsequently, these instruments are measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in surplus or deficit. Amortised cost is calculated by taking into account any discount or premium on acquisition of these instruments excluding commitment fees, management charges and front-end fees.

### • Silver Retirement/Savings Bonds

These instruments are recognised at cost plus accrued interest.

#### De-Recognition of Financial Liabilities

A financial liability (or a part of a financial liability) is removed from the statement of financial position when, the financial liability is extinguished – i.e., when the obligation specified in the contract is discharged, waived, cancelled or expired.

b) International Monetary Fund (IMF)- SDR Allocations

IMF SDR Allocations represent obligations which arise through the participation of the Republic of Mauritius in the SDR Department of the IMF and that are related to the allocation of SDR Holdings. SDR Holdings are international reserve assets created by the IMF and allocated to members to supplement reserves.

IMF SDR Allocations are translated at year-end exchange rate with any gains/losses arising on re-measurements recognised in the Statement of Financial Performance in the period in which they arise.

#### (iv) Financial Guarantee Liability

The Government provides financial guarantee as and when required in respect of loans contracted by Public Sector Bodies. Such guarantees are given to the lender to reimburse the amount of any loss incurred in the event of nonrepayment of the respective loans by the Public Sector Bodies.

These financial guarantee contracts are initially recognised as a liability at fair value.

Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the liability and the amount initially recognised less cumulative amortisation.

### 2.13 Employee Benefit Obligations

(i) Short-Term Employee Benefits

Short-term employee benefits are benefits which are expected to be settled wholly before twelve months after the reporting period in which the employee renders the related service.

Short-term employee benefits are expensed in the period the employee renders the service and a liability is recognised in respect of amount not paid at the end of the financial year. Owing to the short-term nature of those entitlements, the liabilities are not discounted for the time value of money and are presented as current liabilities

The short-term employee benefits consist of salaries, wages, salary compensation, overtime, travelling and transport, allowances, end of year bonus, social security contributions, passage benefits, and allowance in lieu of passage benefits.

Accumulated paid leave (bank of sick leave and vacation leave) and end of year bonus are accrued in the period the employee renders the service and a liability is recognised in respect of amount not paid at the end of the financial year.

Passage benefits represent the estimated liability of the Government in respect of passage benefits accrued to public officers on permanent and pensionable establishment drawing a minimum monthly salary of Rs 25,525 or reckoning at least five years' service as per PRB 2016 and minimum monthly salary of Rs 27,400 or reckoning at least five years' service as per PRB 2021. Passage benefits are earned at the rate of 5% of the gross salaries annually. The carrying amount is re-measured each year and after taking into account amount paid and earned during the year.

- (ii) Post-Employment Benefits
  - (a) Defined Contribution Plan

Defined contribution plans are post-employment benefit plans under which the Government pays fixed contributions into another entity, the State Insurance Company of Mauritius Limited (SICOM Ltd), for full time employees who joined the Public Sector from 1 January 2013 onwards. The Government has no further payment obligations once the contributions have been paid. These contributions are expensed in the period the employee renders the service and a liability is recognised in respect of amount not paid at the end of the financial year.

### (b) Defined Benefit Plans

The Government operates two Defined Benefit Plans, one for employees who joined service prior to the year 2013 and one for Members of the Legislative Assembly.

Both plans are unfunded. The calculation of defined benefit obligations is performed on a 3 yearly basis by a qualified actuary. Currently, Government appoints SICOM Ltd as its actuary. The cost of providing benefits is calculated using the projected unit method. The benefits are then discounted in order to determine the present value of the defined benefit obligations and the current service cost.

Remeasurements, comprising actuarial gains and losses, are reflected immediately in net assets/equity.

(c) National Savings Fund

These contributions are expensed in the period the employee renders the service and a liability is recognised in respect of amount not paid at the end of the financial year.

### 2.14 Revenue from Non-Exchange Transactions

(i) Taxation

Taxation consists of Taxes on Income and Profits, Taxes on Property, Taxes on Goods and Services, Taxes on International Trade and Transactions and Other Taxes.

For the financial year 2020/21, the revenue recognition policy adopted for each major type of taxation revenue is as follows:

	2. Advertising Structure Fee, Shooting and Fishing Lease and Passenger Fee
	Revenue is recognised when taxes are declared in the tax payers returns during the financial year.

Penalties, interests and surcharges arising in relation to taxation are recognised as revenue in the year when these charges are applied.

Revenue on assessments is recognised in the financial year in which the Assessment, Objection or Appeal is finalised i.e. after the resolution of the dispute.

For the financial year 2019/20, all taxation revenue were recognised on a cash basis.

# (ii) Transfers

(a) Fines, Penalties and Forfeits

Fines, Penalties and Forfeits are recognised on an accrual basis. For the financial year 2019/20, these were recognised on a cash basis.

(b) Grants and Aid

Grants and Aid consist of Grants from Domestic and Foreign Governments, International Organisations and Other General Government Units.

These grants are recognised on an accrual basis.

(c) Other Transfers

Other transfers include:

- Transfer of surplus cash balances from statutory bodies and special funds and any contributions made by a party to Government. These are recognised on a cash basis.
- Concessionary Loans

The difference between loan proceeds and the fair value of the loan on initial recognition is recognised as revenue.

• Goods in-kind

Goods in-kind are measured at fair value as at the date of acquisition and recognised on obtaining control of the asset if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Government and can be measured reliably.

• Debt Forgiveness

Debts written off by Development Partners/Donor Agencies are recognised as revenue when the debt no longer meets the definition of a liability.

(iii) Contribution Sociale Généralisée (CSG)

CSG is recognised on an accrual basis.

#### 2.15 Revenue from Exchange Transactions

Revenue from exchange transactions consist of Licenses, Finance Income, Dividends and Withdrawals from Income of Quasi Corporations, Rent and Royalties, Sales of Goods and Services and Other Revenue.

For the financial year 2020/21, these revenues except for Dividends and Withdrawals from Income of Quasi Corporations, have been recognised on an accrual basis. Dividends and Withdrawals from Income of Quasi Corporations have been recognised on a cash basis.

For the financial year 2019/20, all revenue were recognised on a cash basis.

### 2.16 Expenses

(i) Subsidies and Grants

Subsidies and Grants to Local Authorities, Extra Budgetary Units, Rodrigues Regional Assembly and other General Government units are recognised when payments are made.

Contributions to International/Regional Organisations, Insurance & Compensation arising out of Government Liability are recognised in the period to which they relate to.

(ii) Social Benefits

Social benefits are recognised in the period to which they relate to.

(iii) Operating Expenses

These are recognised in the period when goods are received or services are rendered.

Operating expenses include rental expense on operating leases which are recognised on a straight-line basis over the lease terms. The Government does not currently hold any assets under a finance lease. The Government leases various offices, warehouses, rental of network lines amongst others. Rental of offices, warehouses and network lines are made for fixed periods between 2 to 10 years which may be extended. All other rental contracts are for short term lease, normally less than one year.

(iv) Other Expenses

Other expenses, except for other transfer payments are recognised on an accrual basis.

All transfer payments, except those made to regional/international organisations, Insurance & Compensation arising out of Government liability, are recognised on a cash basis. Transfers made to regional/international organisations are recognised in the period when goods are received or services are rendered.

(v) Finance Costs

Finance costs on financial liabilities are measured at amortised cost and are recognised using the effective interest rate method.

#### 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements includes the use of accounting estimates and management assumptions and judgement. It also requires management to exercise its judgement in the process of applying accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant include, but are not limited to: estimation of Receivables and loss allowance for expected credit losses on Receivables from Exchange Transactions, selection of useful lives and the depreciation/amortization method for Property Plant and Equipment/Intangible Assets, estimating the fair value of certain categories of Property Plant and Equipment and Investments, actuarial measurement of post-employment benefit obligations, assumptions used in calculating the fair value of Government Debt for which there is no observable market price and Financial Risk and estimation to compute the value for Financial Guarantee Liability. Actual results could differ from those estimates. Changes in estimates are reflected in the period in which they become known.

### 4. CASH AND CASH EQUIVALENTS

Receivables from Income Tax – Companies & Bodies Corporate have been recognised for the first time in the financial statements for the financial year 2020-2021. Due to impracticability issue, no restatements have been made with respect to the financial year 2019-2020. Therefore, the comparative information is not comparable to the information presented for the financial year 2020-2021 for Income Tax – Companies & Bodies Corporate.

The difference between the two figures presented in Statement A – Statement of Financial Position and Statement N - Statement of Arrears of Revenue is due to the different basis applied in computing the figures. Arrears of Revenue is computed on a claim basis while receivables are computed when transactions are incurred.

Refer to Note 33(i) for details on the prior year adjustments.

During the financial year 2020-2021, an amount of Rs 1,413,283 was written off (Refer to Note 29).

(i) Equity Investments and Redeemable Preference Shares

Fair Value of Equity Investments and Redeemable Preference Shares

The Government uses the following hierarchy for determining and measuring the fair value of investments:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Other techniques for which all inputs are observable and have a significant effect on the recorded fair value, either directly or indirectly; and
- Level 3: Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The level of fair value measurement used for each category of investment is shown in the table below:

Category	Level	Basis
Quoted Investments	Level 1	Based on market prices of shares on the Stock Exchange
		of Mauritius as at the end of the financial year, except
		for Air Mauritius Limited, where the latest share price
		following the resumption of dealings has been used.
Unquoted Investments	Level 3	Based on the Net Asset figures from the latest audited
		financial statements of investees except for:
		i) ISM Ltd and National Fishing Company Ltd, where
		their costs have been deemed to be their market value
		as no audited financial statements are available due to
		their recent incorporation;

Category	Level	Basis
		ii) National Property Fund Ltd which is based on the
		unaudited financial statements for the financial year
		2020/21.
Equity Participation	Level 3	Based on the Net Asset figure from the latest audited
		financial statements of investees.
Redeemable Preference	Level 3	Based on the value disclosed in the latest audited
Shares		financial statements of investees.

The table below shows an analysis of equity investments and redeemable preference shares mandatorily measured at fair value through surplus or deficit by the level of hierarchy:

The discount rate is determined by reference to market yields on bonds for the year ended 30 June 2019.

Significant actuarial assumptions for determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analyses below have been determined based reasonably on possible changes of the assumptions occurring at the end of the reporting period.

- If the discount rate would be 100 basis points (one percent) higher (lower), the defined benefit obligations would decrease by Rs 13,144 M (increase by Rs 16,299 M) if all other assumptions were held unchanged.

- If the expected salary growth would increase (decrease) by 1%, the defined benefit obligations would increase by Rs 6,272 M (decrease by Rs 5,359M) if all assumptions were held unchanged.

- If life expectancy would increase (decrease) by one year, the defined benefit obligations would increase by Rs 3,498 M (decrease by Rs 3,485 M ) if all assumptions were held unchanged.

In reality one might expect interrelationships between the assumptions, especially between discount rate and expected salary increases, given that both depends to a certain extent on expected inflation rates. The analysis above abstracts from these interdependence between the assumptions.

The value of the notes as at 30 June 2021 stood at Rs 6,220,530,000 (2020: Rs 5,906,600,000),

#### (ii) Other International Financial Organisations

Pursuant to Section 4(3) of the International Financial Organisations Act, the Government has also issued non-negotiable securities to the International Development Association. The value of securities as at 30 June 2021 stood at Rs 9,196,738 (2020: Rs 9,196,738).

### 32. COMPARISON OF BUDGET AND ACTUAL AMOUNTS

The approved budget is in respect of revenue estimates and Government expenditure, both recurrent and capital, appropriated by votes for the financial year 2020 - 2021. The original estimates of expenditure amounting to Rs 144,300M (2020: Rs 123,700M) were passed by the National Assembly on 23 June 2020 and supplementary estimates amounting to Rs 17,000M and Rs 23,600M (2020: Rs 33,700M) were passed on 11 May 2021 and 30 June 2021 respectively (2020: 30 June 2020).

The Statements of Comparison of Budget Estimates and Actual Amounts - Statement AE and Statement AF are prepared on the same basis as the budget.

#### (i) Explanation between Original and Total Provisions (Final Budget)

The amounts presented under 'Total Provisions' in Statements of Comparison of Budget Estimates and Actual Amounts -Statement AE and Statement AF differed from the original estimates as there was a supplementary estimates approved in relation to the resurgence of COVID- 19 pandemic and also funds were transferred or re-allocated in accordance with the Virement Rules.

#### (ii) Explanation of material differences between Original Estimates and Actual Amount

The table hereunder provides the explanation for material variances:

Budget line item	Variance amount	Variance percentage	Explanation
	Rs	percentage	
Recurrent Revenue	3,385,959,280	3%	Recurrent revenue was lower mainly due to the lockdown and the impact of COVID-19 on the economy. This was partly offset by higher receipts from Social Contribution.
Recurrent Expenditure	(5,917,214,316)	(4%)	The increase in recurrent expenditure was mainly due to the transfer of Rs 4.6 billion to the State Trading Corporation to enable the latter to settle its liability following the determination of the Privy Council in the STC v/s Betamax case. Additional funds were also required for payment of pensions to a higher number of beneficiaries and to cater for Social Contribution with effect from September 2020.
Capital Revenue	5,802,634,592	19%	The lower capital revenue was due lower grant from Government of India and Government of

**JUNE 2021** 

Budget line item	Variance amount Rs	Variance percentage	Explanation
			Peoples' Republic of China and the exceptional contribution from the Bank of Mauritius being lower than expected.
Capital Expenditure	(15,313,963,383)	(51%)	Capital expenditure was higher essentially due to transfers to Special Funds for the implementation of various schemes and programmes following the resurgence of the COVID-19 pandemic. Provisions were required for the writing- off of long outstanding loans of some public bodies. These were, however, partly offset by delays in implementation of some capital projects.
Net Acquisition of Financial Assets	(16,140,850,043)	(1617%)	The increase was due to the equity injection in the National Property Fund Ltd and delays in the disposal of some non-strategic assets following the resurgence of COVID-19.

#### 37. FINANCIAL RISK MANAGEMENT

Government activities are exposed to various risks comprising mainly interest rate risk, foreign exchange risk, liquidity risk and refinancing risk. Given that there is a trade-off between cost and risk, Government's debt management strategy aims at minimising the cost of the debt portfolio within an acceptable level of risk. The main risks as well as the risk management policies are set out below:

#### (i) Interest Rate Risk

Government is exposed to interest rate risk as the rate of interest might increase resulting in additional costs. In relation to domestic debt, almost 97% of Government securities have been issued at a fixed rate of interest.

With regard to Government external debt, the share of variable interest rate loans represent 33.8% of the total external debt at end June 2021 (2020: 63.3%). To mitigate this risk, the strategy in place is to have a nearly balanced mix of fixed and variable interest rate loans over the medium term. Accordingly, preference is being given to contract new loans at a fixed interest rate.

#### Interest Rate Sensitivity Analysis

Government is exposed to interest rate risk as interest rates in relation to inflation-indexed bonds (assuming changes in interest and inflation rate are correlated) and variable interest rate external debts may change. The table below details the sensitivity analysis to a 10 basis points increase and decrease in the interest rate:

	Year Ended		Year Ended	
	30 Jun	e 2021	30 June 2020	
	(Restated)		ated)	
	<b>Rs Million</b>	<b>Rs Million</b>	<b>Rs Million</b>	<b>Rs Million</b>
Government Debt:				
Inflation-Indexed Bonds:	+10 bp	-10 bp	+10 bp	-10 bp
Impact on Surplus or Deficit	+10	-10	+10	-10
<u>External Debts:</u> Impact on Surplus or Deficit	+10 bp +29	-10 bp -29	+10 bp +28	-10 bp -28

Based on the above table, it can be noted that an increase/decrease of 10 basis points in interest rates would result in an increase/decrease in the interest payments by about Rs 39M for the year 2020-2021 (2020: Rs38 M- restated).

#### (ii) Foreign Exchange Risk

Exposure to exchange rate risks arise as transactions denominated in foreign currencies are undertaken by Government. The strategy has been to minimise exposures to exchange rate risks by having greater recourse to domestic financing and to align the currency composition of public sector external debt to that of export earnings of the country.

Accordingly, the share of external debt in Government debt portfolio stood at 21.7% at 30 June 2021 (Based on nominal value) (2020:12.5%). The currency composition of foreign debt has also been diversified. In addition, the foreign currency risk is mitigated by maintaining bank accounts denominated in foreign currencies.

#### Foreign Currency Sensitivity Analysis

The table below details the sensitivity analysis regarding the impact of a 5 % increase or decrease (2020: 5%- restated) in exchange rates:

		Year ended 30 June 2021	Year ended 30 June 2020 (Restated)
		Rs million	Rs million
Impact on profit (Appreciation of MUR)	+5%	+3,600	+2,200
Impact on loss (Depreciation of MUR)	-5%	-3,600	-2,200

As per the above table, an appreciation/depreciation of MUR by 5% against all foreign currencies in which external debt has been contracted would increase/decrease profits by Rs 3.6 billion for FY 2020-21 (2020: Rs 2.2 billion- restated).

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Government will encounter difficulty in meeting its financial obligations when they fall due. The liquidity risk for government is managed and mitigated by having an efficient and effective cash flow forecasting system that ensures adequacy of cash resources to meet all government obligations as and when they fall due.

(iv) Refinancing Risk

Refinancing or rollover risk is the risk that redemptions of securities will be concentrated over the shorter term or in a particular year which might affect the refinancing ability of the Government. To mitigate refinancing risk, actions have been taken to gradually move towards instruments with longer term.

The average time to maturity of domestic debt has been increased from 4.7 years at end of June 2020 to 5.0 years at end of June 2021.

Concerning external debt, the majority of the loans are contracted with a term of 15 to 20 years and include a moratorium of 5 years on capital repayment. Compared to Government securities which are redeemable as a bullet payment on maturity date, External Debts are repayable on a semi-annual or annual basis. Therefore, the refinancing risk for External Debts is quite low.

### 38. OPERATING LEASE ARRANGEMENTS

Lease expense has been recognised in the Statement of Financial Performance under item rental expense (Refer to Note 28-Operating expenses).

As at 30 June, the outstanding commitments under non-cancellable operating leases, which fall due are as follows:

#### Note:

- N1 The fair value has been determined as follows:
  - (i) Quoted Shares are based on their market prices on the Stock Exchange of Mauritius as at the end of the financial year, except for Air Mauritius Limited, as explained at Note 2.
  - (ii) Unquoted Shares and Equity Participation are based on the Net Asset figure from the latest audited financial statements of investees, except for (a) ISM Ltd and National Fishing Company Ltd, whereby their costs have been deemed to be their fair value as no audited financial statements are available due to their recent incorporation and (b) National Property Fund Ltd whereby the unaudited financial statements for the financial year 20/21 were taken. In respect of foreign investments, the net asset figure has been translated at the exchange rate prevailing at 30 June 2021.
  - (iii) Other Investments fair value approximates its cost.
- N2 Air Mauritius Ltd was placed under administration as from 22 April 2020, which resulted in suspension of dealings in its shares on the Stock Exchange of Mauritius until 22 October 2021. Dealings resumed on 26 October 2021 and the share price of Rs 4.50, as at 30 November 2021, has been used for valuation purposes.
- N3 Cost has been determined based on nominal value/book value.
- N4 Represents dividend in specie received from AfrAsia Bank Limited in the proportion of 1 share of EKADA CAPITAL LTD for each share held in AfrAsia Bank Limited. 3 Shares were received at the book value of Rs 0.34 per share.
- N5 Redeemable Preference Shares in Landscope (Mauritius) Ltd, previously reported under unquoted shares, have been disclosed separately.
- N6 Fair Value of Airports of Mauritius Co. Ltd has been been disclosed under 'unquoted shares'.
- N7 The increase in Nominal Value and Cost is due to an increase in the paid-up capital of the Bank of Mauritius.

#### **Other Information:**

(i) Investments denominated in foreign currencies are translated at year end exchange rate.
