REPORT OF THE ACCOUNTANT-GENERAL

1.0 OVERVIEW

The Accountant-General is required under Section 19(1) of the Finance and Audit Act (FAA) to prepare the Financial Statements (FS) of the Republic of Mauritius and submit same to the Director of Audit within six months of the close of every financial year (FY). These statements should present fairly, in all material respects, the financial position of Government as at the last date of the FY and the financial performance and cash flows of Government for the year then ended. The FS relate to the Budgetary Central Government (BCG).

In order to fulfill the above responsibilities, the Accountant-General has to ensure that:

1. Accounting systems, including Chart of Accounts, respond to the needs of the Government and function effectively; and
2. The Treasury Accounting System comprehensively supports Government-wide budget execution for proper accounts to be kept and maintained.

The above responsibilities were discharged as required. The accounts for FY 2022-2023 were closed on 29 September 2023 and the Annual Statements were submitted to the Director of Audit within the period prescribed by FAA.

This is the first set of FS which has been prepared in compliance with International Public Sector Accounting Standards (IPSAS) and it is the first year of the transitional period under *IPSAS 33 – First-time Adoption of Accrual Basis IPSASs*. Transitional exemptions have been applied as detailed in note 2.1 (B) to the FS at page 12.

To achieve compliance with IPSAS, the following items have been recognised for the first time in the FS:

Items recognised for the first time:

- Expected Credit Loss on Loans to Statutory Bodies, Private Bodies and Other Bodies;
- Expected Credit Loss on Receivables (Penalty Interest on Loans);
- Right-of-Use Assets and Lease Liabilities; and
- Non-current Assets held for Sale and Discontinued Operations.

The following enhancements were brought to the FS:

- Loans to Statutory Bodies, Private Bodies and Other Bodies previously recognised at cost have now been recognised at amortised cost;
- Maturity analysis on Financial Guarantee Liabilities was disclosed;
- Additional disclosures and reconciliation notes on changes in carrying amount of Biological Assets; and
- Disclosure notes on Managing Capital was included.

As already highlighted above, the FS for the FY 2022-2023 relate to the BCG. There are different layers of Government as per the Government Finance Statistics Manual, with Public Sector being the largest layer which incorporates, inter-alia, BCG. The Public Sector in Mauritius comprises of some 250 entities using either IPSAS or International Financial Reporting Standards.

It is expected that the Consolidated Financial Statements of the Public Sector will be prepared as from FY 2025-2026.

AUDIT
CERTIFICATE

NATIONAL AUDIT OFFICE

CERTIFICATE OF AUDIT

TO THE NATIONAL ASSEMBLY

Report on the Audit of the Annual Statements of the Government of the Republic of Mauritius

Opinion

I have audited the Annual Statements of the Government of the Republic of Mauritius, submitted in accordance with Section 19(1) of the Finance and Audit Act, which comprise the statement of financial position as at 30 June 2023, and the statement of financial performance, the statement of changes in net assets or equity, the cash flow statement and the statement of comparison of budget estimates and actual amounts for the year then ended, other Statements as required under Section 19(3) of the Act, and notes to the accounts, including a summary of significant accounting policies.

In my opinion, the accompanying Annual Statements give a true and fair view of the financial position of the Government of the Republic of Mauritius as at 30 June 2023, and of its financial performance and its cash flows for the year then ended in accordance with International Public Sector Accounting Standards (IPSASs).

Basis for Opinion

I conducted my audit in accordance with International Standards of Supreme Audit Institutions (ISSAIs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Annual Statements* Section of my report. I am independent of the Ministries and Government Departments in accordance with the INTOSAI Code of Ethics, together with the ethical requirements that are relevant to my audit of the Annual Statements of the Government of the Republic of Mauritius, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter

I draw attention to the following:

- Note 2.1 to the financial statements concerning basis of preparation. The Government initiated accrual basis IPSASs on 1 July 2022 and elected to adopt the transitional exemptions in IPSAS 33, First-time Adoption of Accrual Basis IPSASs, that allows it a transitional period of up to three years. As a result, the Government is not able to make an explicit and unreserved statement of full compliance with accrual basis IPSAS.

- Note 23 to the financial statements regarding liabilities in respect of the pension defined benefit plan of Rs 149.9 billion as of 30 June 2023.
- As per statement of financial performance, prepared in accordance with accrual basis, the deficit figure for the financial year ending 30 June 2023 amounted to Rs 25.6 billion.
- Note 51 in relation to an event after reporting date for an award made in December 2023 by an International Arbitration Tribunal in respect of a terminated contract whereby the State of Mauritius has been ordered to pay interest on an amount awarded.

My opinion is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the Annual Statements of the current period. These matters were addressed in the context of my audit of the Annual Statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters. I have determined the matter described below to be a key audit matter to be communicated in my certificate of audit.

Receivables from Non-Exchange Transactions - Rs 21.3 billion

As stated in Note 5, the total balance of Receivables from Non-Exchange Transactions as of 30 June 2023 amounted to Rs 21.3 billion. This figure excludes some Rs 31.8 billion representing disputed tax cases at the MRA. The outcome of such cases has not yet been determined.

The collectability of receivables is considered a key audit matter due to the significance of the amount involved, extensive audit tests involved, intensive discussions concerning accounting treatment of tax cases not yet settled and estimates and assumptions involved for measurement.

My audit procedures, among other matters, included the following:

- Evaluated the adequacy of the disclosures included in the financial statements in accordance with requirements of IPSAS.
- Checked the accuracy and completeness of receivables figures from returns submitted by Revenue Departments.
- Examined the accounting treatment of tax cases under objections and appeal in compliance with relevant IPSAS.
- Inspected the ageing profile of receivables to identify significant long outstanding balances.

Responsibilities of the Accountant General and Those Charged with Governance for the Annual Statements

The Accountant-General is required, under Section 19 of the Finance and Audit Act, to sign and submit Annual Statements within 6 months of the close of every fiscal year, and is responsible for such internal control necessary to enable the preparation of Annual Statements that are free from material misstatement, whether due to fraud or error.

Those charged with governance in Ministries and Government Departments are responsible for maintaining proper accounting records and providing to the Accountant-General, for the purpose of the Annual Statements, information that are accurate.

Auditor's Responsibility for the Audit of the Annual Statements

I am required under Section 20 of the Finance and Audit Act to issue a certificate of audit on the Annual Statements of the Government of the Republic of Mauritius, submitted in accordance with Section 19 of the Finance and Audit Act, within 8 months of the close of every fiscal year.

My objectives are to obtain reasonable assurance about whether the Annual Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a certificate of audit that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Annual Statements.

As part of an audit in accordance with ISSAIs, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the Annual Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Ministries' and Departments' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Evaluate the overall presentation, structure and content of the Annual Statements, including the disclosures, and whether the Annual Statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the Annual Statements of the current period and are therefore the Key Audit Matters. I describe these matters in my certificate of audit, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my certificate because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Management's Responsibility for Compliance

Management is responsible for controlling expenditure on any service in respect of which public funds have been appropriated and for collecting revenue and paying that revenue into public funds, as well as putting in place a sound system of internal control designed to provide reasonable assurance regarding, amongst others, the effectiveness and efficiency of operations, the safeguarding of assets and data, the prevention of fraud and irregularities, and the compliance with applicable laws, regulations and instructions, policies and established procedures.

Auditor's Responsibility

Finance and Audit Act

In addition to my responsibility to express an opinion on the Annual Statements described above, I am required under Section 16 of the Finance and Audit Act to satisfy myself that:

- (a) all reasonable precautions have been and are taken to safeguard the collection of public money;
- (b) all laws, directions or instructions relating to public money have been and are duly observed;

- (c) all money appropriated or otherwise disbursed is applied to the purpose for which Parliament intended to provide and that the expenditure conforms to the authority which governs it;
- (d) adequate directions or instructions exist for the guidance of public officers entrusted with duties and functions connected with finance or storekeeping and that such directions or instructions have been and are duly observed; and
- (e) satisfactory management measures have been and are taken to ensure that resources are procured economically and utilised efficiently and effectively.

I am also required, under Section 20 of the Finance and Audit Act, to submit a Report upon my examination and audit of the accounts of Government.

In my opinion, except for the matters mention in my Report for the financial year 2022-23, nothing has come to my attention that causes me to believe that the financial management principles laid down at Section 16 of the Finance and Audit Act have, in all material respects, not been adhered to.

Public Procurement Act

I am required to state whether the provisions of Part V of the Public Procurement Act regarding the bidding process have been complied with.

In my opinion, except for the matters mention in my Report for the financial year 2022-23, the provisions of Part V of the Act have been complied with as far as it could be ascertained from my examination of the relevant records.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

The Republic of Mauritius is an island found in the Indian Ocean. It got its independence on 12 March 1968. The country has a Westminster type of Parliamentary Government.

Under the Finance and Audit Act, 1973, as subsequently amended, it is the responsibility of the Accountant-General to prepare the financial statements of the Government within six months of the close of every fiscal year. The Government refers to the Budgetary Central Government.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation

A Estimates

The Estimates (Budget) of the Government is appropriated by votes of expenditure on a cash basis, except for 'cost of borrowings' which is appropriated on an accrual basis and 'carry-over of capital expenditure' where amount earmarked in a fiscal year is carried over to a period not exceeding 3 months in the following fiscal year. The Estimates is classified by both economic and functional classifications based, as far as possible, on the Government Finance Statistics Manual.

The Estimates is for the Budgetary Central Government, which includes Ministries and Government Departments. Transfers to Special Funds are appropriated and included as expenditure in the approved Estimates in the year of expenditure. However, the revenue and expenditure of the Special Funds deposited with the Accountant-General are not included in the approved Estimates.

The approved Estimates covers the fiscal year from 01 July 2022 to 30 June 2023.

B Financial Statements

The financial statements have been prepared in accordance with Section 19 (3A) (b) of the Finance and Audit Act 1973, as subsequently amended which requires these statements to be in compliance with International Public Sector Accounting Standards (IPSAS) .

(i) *Transitional Financial Statements*

The date of adoption of IPSAS for the Government is 01 July 2022. Prior to the adoption of IPSAS, the financial statements were prepared, as far as possible, in compliance with IPSAS. The first transitional IPSAS financial statements of the Government in respect of the financial year 2022-2023 have been prepared in compliance with IPSAS 33 – First-time Adoption of Accrual Basis IPSASs, which provides the first-time adopter with a transitional period of three years for the recognition, measurement, presentation and disclosure of certain assets and liabilities. The changes resulting from the adoption of the new basis is given in Note 40.

Government has taken advantage of the following transitional exemptions which affected fair presentation. As a result, it is unable to make an explicit and unreserved statement of compliance with Accrual Basis IPSAS in preparing its transitional IPSAS financial statements for the financial year 2022-2023.

NOTES TO THE FINANCIAL STATEMENTS

N/A Not applicable

It is expected that the Financial Statements of the Government will be fully compliant to IPSAS as from financial year 2025-2026.

(ii) New Standards Issued but Not Yet Adopted

At the date of approval of these financial statements, the following IPSASs had already been issued but not yet effective:

IPSAS	Effective date
IPSAS 45, Property, Plant, and Equipment	01 January 2025
IPSAS 46, Measurement	01 January 2025
IPSAS 47, Revenue	01 January 2026
IPSAS 48, Transfer Expenses	01 January 2026
IPSAS 49, Retirement Benefit Plans	01 January 2026

The new standards will be adopted when they become effective. The potential impact of the application of these new standards is yet to be assessed.

(iii) Consistent Accounting Policies

The accounting policies have been applied consistently throughout the year. Where necessary and where it is practicable, comparative figures have been restated to conform to changes in presentation, or in accounting policies in the current year.

NOTES TO THE FINANCIAL STATEMENTS

2.2 Reporting Entity

The financial statements are for the Budgetary Central Government of the Republic of Mauritius, which comprises Ministries and Government Departments and include bank balances and fixed deposits of Special Funds deposited with the Accountant-General.

2.3 Reporting Period

The financial statements cover the financial year of the Government of Mauritius from 01 July 2022 to 30 June 2023.

2.4 Authorisation Date

The financial statements were authorised for issue on 29 December 2023 by Mr. S.D. Ramdeen, Accountant-General.

2.5 Foreign Currencies

(i) Functional and Presentation Currency

The financial statements are presented in Mauritian Rupees (Rs), rounded to the nearest rupee, which is also the functional currency.

(ii) Transactions and Balances

Transactions in foreign currencies are initially translated at the foreign exchange rate at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Financial Performance. Non-monetary assets and liabilities measured at historical cost in foreign currencies are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at reporting date.

2.6 Cash and Cash Equivalents

Cash and cash equivalents comprise cash in hand, cash remitted to Ministries and Departments, cash balances with banks, both local and overseas, deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value and cash held on behalf of Special Funds.

2.7 Financial Assets

(i) Receivables from Non-Exchange Transactions and Receivables from Exchange Transactions

Receivables from Non-Exchange Transactions comprise receivables from taxation, fines, penalties and forfeits and social contributions.

Receivables from Exchange Transactions comprise receivables from licences, finance income, rent and royalties, sales of goods and services and other revenue.

NOTES TO THE FINANCIAL STATEMENTS

These are recognised when it is probable that the future economic benefits associated with the asset will flow to the Government and can be measured reliably. Receivables are accounted for on an accrual basis.

Impairment of Receivables

A loss allowance for expected credit losses (ECL) is recognised on receivables from non-exchange transactions and exchange transactions. An impairment gain or loss is recognised in Statement of Financial Performance representing the amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised.

The methodology of loss allowance on receivables has been determined using judgement, estimates and various assumptions which are deemed to be reasonable and appropriate. For Ministries and Departments, factors/indicators such as past trends, historic data, ageing analysis and long overdue payments for a period of more than 10 years have been used to calculate the loss allowance.

For tax revenue, the methodology for the calculation of loss allowance is as follows:

	% Debt unrecoverable
Over 10 years	20
Between 5 and 10 years	10
Between 1 and 5 years	2
Less than 1 year	0.5

The methodology for the calculation of loss allowance for less than 1 year has been revised from 0% (financial year 2021-2022) to 0.5% (financial year 2022-2023) based on past experience.

(ii) Loans and Advances

Loans to Statutory bodies, Private bodies and Other bodies are recognised at amortised cost adjusted for expected credit losses.

Advances are made under the authority of warrants issued under Section 6(1) of the Finance and Audit Act and are recoverable within specified periods. Advances are recognised at amortised cost which is equivalent to cost as the effect of discounting is not considered material.

(iii) Investments

These represent mainly investments made out of monies standing to the credit of the Consolidated Fund and Special Funds in accordance with Sections 3(4)(a) and 9(3)(a) of the Finance and Audit Act.

NOTES TO THE FINANCIAL STATEMENTS

Initial Recognition of Investments

On initial recognition, investments are measured at fair value.

Classification and Subsequent Measurement of Investments

The table below shows the classification and subsequent measurement basis for the different categories of investments:

Category	Classification and Subsequent Measurement Basis
Equity Investments (Quoted Investments, Unquoted Investments, Equity Participation) and Redeemable Preference Shares	Fair Value Through Surplus or Deficit
Other Investments (Fixed Deposits)	Amortised Cost

(a) Equity Investments and Redeemable Preference Shares Recognised at Fair Value Through Surplus or Deficit

Investments classified as fair value through surplus or deficit are measured at fair value at the end of each financial year, with any gains or losses on remeasurements recognised in surplus or deficit. Any dividend earned on these investments is also recognised in surplus or deficit.

(b) Other Investments Recognised at Amortised Cost

Other investments (fixed deposits) held by Government and Special Funds at banks and financial institutions have been reported at amortised cost with any movement recognised in surplus or deficit.

(iv) Other Financial Assets

(a) International Monetary Fund (IMF) Special Drawing Rights (SDR) Deposits

IMF SDR Deposits represent international reserve assets allocated to Mauritius by the IMF (SDR Holdings) and held at the Bank of Mauritius.

IMF SDR Deposits are translated at year-end exchange rate with any gains or losses arising on re-measurements recognised in the Statement of Financial Performance in the period in which they arise.

(b) IMF Reserve Tranche Position

The Reserve Tranche Position represents that portion of the quota of the Republic of Mauritius in IMF that has been paid in reserve assets, i.e. SDRs or foreign currency acceptable to the IMF.

Reserve Tranche transactions, i.e. subscriptions, purchases and sales, are initially translated at the exchange rate at the date of the transaction. At year-end, the SDR Reserve Tranche Position is translated using year-end exchange rates and any gains or losses recognised in the Statement of Financial Performance as foreign exchange gains or losses.

NOTES TO THE FINANCIAL STATEMENTS

2.8 Inventories

Inventories comprise mainly distributable items, consumables and agricultural produce and biological inventory.

Inventories meant for distribution at no charge or nominal charge or consumption in the production process of goods to be distributed at no charge or for a nominal charge are measured at lower of cost and the estimated replacement cost. All other inventories are measured at lower of cost or net realisable value. The cost has been determined using First In First Out Basis (FIFO).

The cost of inventories from non-exchange transactions (donated inventories) is measured at its fair value at the date of receipt.

Agricultural produce that has been harvested from biological assets are measured at fair value at the point of harvest. The costs to sell relating to agricultural produce was considered to be insignificant. Any gains or losses arising on recognition of agricultural produce at fair value are recognised in surplus or deficit.

2.9 Non-Current Assets Held for Sale and Discontinued Operations

The Government classifies a non-current asset (or disposal group) as held for sale when the following criteria are met:

- its carrying amount will be recovered principally through a sale transaction rather than through continuing use;
- the asset (or disposal group) must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets (or disposal groups); and
- its sale must be highly probable.

A non-current asset (or disposal group) classified as held for sale is measured at the lower of its carrying amount and fair value less costs to sell.

No depreciation or amortization is charged while the non-current asset (or disposal group) is classified as held for sale.

Discontinued Operations

A discontinued operation is a component of the Government that either has been disposed of, or is classified as held for sale, and represents a significant component of the Government's operations. The Government will no longer have control over the operations once the disposal is complete.

2.10 Prepayments

Prepayments are recognised as assets when payment for goods or services has been made in advance of obtaining a right to access those goods or services.

2.11 Biological Assets

Biological assets are split into the following categories:

- (i) Bearer Biological Assets (other than bearer plants);

Bearer Biological assets (other than bearer plants) are those biological assets that are used repeatedly or continuously for more than one year in an agricultural activity. Examples of bearer biological assets include breeding stocks (birds, tortoise, fish, ewes, rams, weaner calves and lambs that are used to replace old animals, bull, cows, heifers, ducks, broiler chicken) and bees.

NOTES TO THE FINANCIAL STATEMENTS

(ii) Consumable Biological Assets

Consumable biological assets are those that are held for harvest as agricultural produce or for sale or distribution at no charge or for a nominal charge as biological assets such as animals and plants for one-time use. Examples of consumable biological assets are trees in a timber plantation forest, fish in farms, fresh water prawn juveniles, weaners calves and lambs that are sold to farmers.

(iii) Agricultural Produce (classified under inventories).

Agricultural produce is the harvested produce of biological assets such as produce growing on bearer plants biological assets.

The Government recognises biological assets when, and only when, it controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Government and the fair value or cost of the assets can be measured reliably.

Bearer biological assets (other than bearer plants) and consumable biological assets are measured at fair value, with any change therein recognised in surplus or deficit. The costs to sell relating to biological assets have been considered to be insignificant.

2.12 Property, Plant and Equipment

Property, Plant and Equipment include the following:

- (i) Infrastructure, Plant and Equipment;
- (ii) Land and Buildings;
- (iii) Assets under Construction; and
- (iv) Other Assets

Furniture, Fixtures and Fittings are currently being expensed.

Capital expenditure incurred under Special Funds for the Government has also been included.

(i) Infrastructure, Plant and Equipment

On initial recognition, Infrastructure, Plant and Equipment are stated at cost or deemed cost. Subsequently, they are stated at cost less accumulated depreciation. Infrastructure, Plant and Equipment represent the cost of the following:

(a) Infrastructure Assets:

- Roads - classified roads/motorways

Valuation Methodology

The value of the roads as at 30 June 2020 has been estimated by the Road Development Authority based on the cost of constructing a road to the following standard:

SN	Road Type	Cost per km (MUR)
1	Motorways	120 million
2	A Roads	75 million
3	B Roads	65 million

NOTES TO THE FINANCIAL STATEMENTS

The value of roads constructed after 30 June 2020 has been measured at cost.

- Dams
- Bridges

Valuation Methodology

The value of bridges as at 30 June 2020 has been estimated by Road Development Authority by using the benchmark of recently constructed bridges of similar nature and size, at that time.

The value of bridges constructed after 30 June 2020 has been measured at cost.

- Stadiums and Gymnasiums; and
- Other Structures.

Infrastructure assets do not include assets acquired by the Government on behalf of Other Public Sector Bodies.

(b) Transport Equipment:

- Ships/Vessels;
- Aircrafts/Helicopters; and
- Other Vehicles.

(c) Other Machinery and Equipment:

- Medical Equipment;
- Office Equipment; and
- Machinery.

(ii) Land and Buildings

- Land

Land acquired prior to 2018 are estimated at deemed cost and those acquired after 2018 are estimated at cost.

The basis used by the Government Valuation Department of the deemed cost is as follows:

- State Lands leased by the Government for various purposes is a reduced rate of 1/3 of freehold value. The rate for leased properties was based on use such as residential, agricultural, industrial and commercial. In cases where the State Lands were leased for industrial use such as hotel, the rate per arpent obtained through analysis of sale of leasehold rights of State Lands along the Pas Geometriques was adopted.
- Outer Islands have been recognised at deemed cost by the Government Valuation Department.
- For grazing land, 1/3 rate of market value of agricultural land as per region has been used for assessment.
- For Ex Tea Land, Agricultural Stations, MSPA Lands and land settlement, valuation has been based on freehold agricultural sales evidence according to different regions.
- For National Parks used as touristic sites, a rate of Rs 2.5 million/arpent has been used.
- For campment sites, valuation has been carried out based on Pas Geometriques sales evidences (leasehold sites).
- Nature Reserve and Walks, Shooting and Fishing Leases and Guardianages have been valued at a uniform rate of Rs 250,000/Arpent.
- Islets used as Nature Reserve have been valued at rates of Rs 200,000 and Rs 215,000 per Arpent depending on regions. Public Beaches and Islets were valued based on rent paid per annum under the State Lands Act and were

NOTES TO THE FINANCIAL STATEMENTS

capitalised in perpetuity at rate of 8%. For Islets leased as hotels i.e industrial site, valuation has been carried out based on sales of leasehold rights along the Pas Geometriques.

- In respect of land acquired by Government for different purposes, the amount of compensation reported to the Ministry of Housing and Land Use Planning has been used.

- Buildings

Buildings represent residential and non-residential buildings, whether purchased, constructed or upgraded.

Buildings are initially recognised at cost and subsequently at cost less accumulated depreciation.

(iii) Assets under Construction

Assets in the course of construction are recognised at cost.

Depreciation of these assets commences when the assets are ready for their intended use.

(iv) Other Assets

Other Assets include Bearer Plants, Plants to maintain the Ecosystem and trained Sniffer Dogs used to detect illicit substances. These are measured at fair value at end of each reporting date.

The fair value model has been used as it is considered to be more appropriate. "Others Assets" category falls under IPSAS 17- Property, Plant, and Equipment as it meets the recognition criteria. However, IPSAS 17 cost and revaluation measurement basis does not provide guidance regarding classes of assets undergoing physical transformation. As similar assets are valued at fair value for instance under IPSAS 27- Agriculture, the fair value model has been applied for biological assets which was deemed to be more appropriate in that context. Moreso, by valuing such assets at fair value represents a fair presentation of their amounts recognised in the financial statements.

(v) Donated Assets

When an asset is acquired in a non-exchange transaction for nil or nominal consideration, the asset is initially measured at its fair value at the date of acquisition and subsequently depreciated over its remaining useful life.

(vi) Depreciation

Depreciation on assets is charged on a straight-line basis over the useful life of the asset. Full year depreciation is charged in the year of acquisition and none in year of disposal. Depreciation is charged at rates calculated to allocate the cost or valuation of the asset over its remaining useful life, as follows:

Buildings	50 years
Infrastructure Assets	10 – 50 years
Transport Equipment	8 – 25 years
Other Machinery & Equipment	4 – 20 years

Land is not depreciated.

(vii) Borrowing Costs

Borrowing costs are recognised as an expense in the period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS

(viii) Derecognition

Property, plant and equipment and/or any significant part of an asset are derecognised upon disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in surplus or deficit when the asset is derecognised.

2.13 Leases

The Government assesses whether a contract is, or contains, a lease, at inception of the contract.

The Government leases various buildings, equipment and other assets under contract for periods ranging between 0 to 20 years which may be extended, as required.

A right-of-use asset (as stated below) and a corresponding lease liability (Refer to 2.18) are recognised with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less). For these short-term leases, the Government recognises the lease payments as an operating expense on a straight-line basis over the term of the lease (Refer to 2.23 Expenses- (iii) Operating Expenses).

Right-of-Use Assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, and lease payments made at commencement date.

These are subsequently measured at cost less accumulated depreciation. Right-of-use assets are depreciated over the shorter period of lease term and useful life of the right-of-use asset.

2.14 Intangible Assets

Intangible assets include licenses, software and IT projects acquired, developed or under development.

Intangible assets acquired separately are initially recognised at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation. Internally generated intangible assets are not capitalised and are expensed in the Statement of Financial Performance in the period in which the expenditure is incurred.

Intangible assets are amortised using the straight-line method over a period of 8 years. Full year amortisation is charged in the year of acquisition. Intangible assets which are still under development phase are recognised at cost and no amortisation is charged until the asset is available for use.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset. Any surplus or deficit arising from the disposal is recognised in the Statement of Financial Performance.

NOTES TO THE FINANCIAL STATEMENTS

2.15 Financial Liabilities

(i) Payables

Payables are recognised at amortised cost which is equivalent to cost as the effect of discounting is not considered material. Payables comprise the following:

- (a) 'Cost of Borrowings' consist of Accrued Interest on Re-opening of Government Bonds and Treasury Notes and Management Charges payable;
- (b) 'Accounts Payable' which are expenses incurred by the Government during the financial year but not yet paid as at year end;
- (c) '*Retention Money on Contracts*' which is a percentage of the amount certified as due to the contractors, deducted from the amount due and retained by the Government; and
- (d) '*Carry-over of Capital Expenditure*' which represents the balance of the provision earmarked for capital projects in the current financial year payable within 3 months of the close of the financial year as per Section 3A of the Finance and Audit Act. The amount recognised in the Statement of Financial Position represents that portion of the total provision carried-over in respect of which goods were received or works completed by end of the financial year.

(ii) Deposits

Deposits are recognised at amortised cost which is equivalent to cost and includes the following:

- (a) Money deposited with the Government under Section 8 of the Finance and Audit Act; and
- (b) Deposits held with the Mauritius Revenue Authority for the purpose of disputes.

(iii) Government Debt

a) Domestic and External Debts (Excluding IMF SDR Allocations)

Initial Recognition and Measurement

Upon initial recognition, Domestic and External Debts are measured at fair value.

For concessionary loans, the difference between the loan proceeds and the fair value on initial recognition is accounted as revenue from non-exchange transactions.

Subsequent Measurement

- Treasury Bills and Treasury Certificates

Treasury Bills and Treasury Certificates are measured at amortised cost which is equivalent to cost plus accrued interest, due to the short-term nature of these liabilities.

- Treasury Notes, Government of Mauritius Bonds (including Inflation-Indexed Bonds), Domestic Loans and External Debts

Subsequently, these instruments are measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in surplus or deficit. Amortised cost is calculated by taking into

NOTES TO THE FINANCIAL STATEMENTS

account any discount or premium on acquisition of these instruments excluding commitment fees, management charges and front-end fees.

- Silver Bonds

Silver Bonds have no pre-defined maturity date as such these are measured at amortised cost, i.e, cost plus accrued interest.

De-Recognition of Financial Liabilities

A financial liability (or a part of a financial liability) is removed from the Statement of Financial Position when, the financial liability is extinguished, that is, when the obligation specified in the contract is discharged, waived, cancelled or expired.

- b) IMF SDR Allocations

IMF SDR Allocations represent obligations which arise through the participation of the Republic of Mauritius in the SDR Department of the IMF and that are related to the allocation of SDR Holdings. SDR Holdings are international reserve assets created by the IMF and allocated to members to supplement reserves.

IMF SDR Allocations are translated at year-end exchange rate with any gains or losses arising on re-measurements recognised in the Statement of Financial Performance in the period in which they arise.

- (iv) Financial Guarantee Liabilities

The Government provides financial guarantee as and when required in respect of loans contracted by Public Sector Bodies. Such guarantees are given to the lender to reimburse the amount of any loss incurred in the event of non-repayment of the respective loans by the Public Sector Bodies.

These financial guarantee contracts are initially recognised as a liability at fair value.

Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the liability and the amount initially recognised less cumulative amortisation.

2.16 Social Benefits Liabilities

Social benefits are cash transfers provided to specific individuals and/or households who meet eligibility criteria, mitigate the effect of social risks and address the needs of society as a whole.

- (i) Initial Measurement

The Government recognises a liability for a social benefit scheme when it:

- (a) has a present obligation for an outflow of resources that results from a past event; and
- (b) the present obligation can be measured in a way that achieves the qualitative characteristics and takes into account constraints on information.

NOTES TO THE FINANCIAL STATEMENTS

The initial measurement of the liability for a social benefit scheme is at the best estimate of the costs, that is the social benefit payments, that the Government will incur in fulfilling the present obligations represented by the liability. The Government also recognises an expense for the social benefit scheme at an amount equivalent to the amount of the liability.

(ii) Subsequent Measurement

The liability is reduced as social benefit payments are made and any difference between the cost of making the social benefit payments and the carrying amount of the liability in respect of the social benefit scheme is recognised in surplus or deficit in the period in which the liability is settled.

2.17 Provisions

Provisions are recognised when the Government has a present obligation as a result of a past event and it is probable that the Government will be required to settle that obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the reporting date. The expense relating to any provision is presented in the Statement of Financial Performance net of any reimbursement. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

2.18 Lease Liabilities

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date. Lease payments included in the measurement of the lease liability comprise fixed and variable lease payments.

In calculating the present value of lease payments, the Government has used the following discount rates:

Lease Term	Discount Rate
Less or equal to 1 year	No discounting
More than 1 year and less or equal to 5 years	5%
More than 5 years and less or equal to 10 years	5.5%
More than 10 years	6%

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability and by reducing the carrying amount to reflect the lease payments made.

In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

2.19 Employee Benefit Obligations

(i) Short-Term Employee Benefits

Short-term employee benefits are benefits which are expected to be settled wholly before twelve months after the reporting period in which the employee renders the related service.

NOTES TO THE FINANCIAL STATEMENTS

The short-term employee benefits consist of salaries, wages, salary compensation, overtime, travelling and transport, allowances, end of year bonus, social security contributions, annual sick leave, current portion of passage benefits, and allowance in lieu of passage benefits.

Short-term employee benefits are expensed in the period the employee renders the service and a liability is recognised in respect of amount not paid at the end of the financial year for end of year bonus and annual sick leave.

Passage benefits represent the estimated liability of the Government in respect of passage benefits accrued to public officers on permanent and pensionable establishment drawing a minimum monthly salary of Rs 27,400 or reckoning at least five years' service as per Pay Research Bureau (PRB) Report 2021. Passage benefits are earned at the rate of 5% of the gross salaries annually. The carrying amount is re-measured each year end after taking into account amount paid and earned during the year.

(ii) Post-Employment Benefits

(a) Defined Contribution Plan

Defined contribution plans are post-employment benefit plans under which the Government pays fixed contributions into another entity, the State Insurance Company of Mauritius Limited (SICOM Ltd), for full time employees who joined the Public Sector from 1 January 2013 onwards. The Government has no further payment obligations once the contributions have been paid. These contributions are expensed in the period the employee renders the service and a liability is recognised in respect of amount not paid at the end of the financial year.

(b) Defined Benefit Plans

The Government operates two Defined Benefit Plans, one for employees who joined service prior to the year 2013 and one for Members of the Legislative Assembly.

Both plans are unfunded. The calculation of defined benefit obligations is performed on a 3 yearly basis by a qualified actuary and will be aligned to the requirements of IPSAS 39 - Employee Benefits during the transitional period. Currently, Government appoints SICOM Ltd as its actuary. The cost of providing benefits is calculated using the projected unit method. The benefits are then discounted in order to determine the present value of the defined benefit obligations and the current service cost.

Remeasurements, comprising actuarial gains and losses, are reflected in the Statement AC - Statement of Changes in Net Assets or Equity.

(c) National Savings Fund

These contributions are expensed in the period the employee renders the service and a liability is recognised in respect of amount not paid at the end of the financial year.

(iii) Other Long-Term Employee Benefits

Other long-term employee benefits comprise non-current portion of bank of sick leave, vacation leave upon retirement and passage benefits.

Accruals in respect of other long-term employee benefits have not been discounted for the time value of money.

NOTES TO THE FINANCIAL STATEMENTS

2.20 Contingent Assets and Contingent Liabilities

The Government does not recognise a contingent asset, but discloses in the notes to the financial statements details of a possible asset whose existence is contingent on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Government. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the notes to the financial statements. If it has become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognised in the financial statements of the period in which the change occurs.

The Government does not recognise a contingent liability, but discloses details of any contingencies in the notes to the financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

2.21 Revenue from Non-Exchange Transactions

(i) Taxation

Taxation consists of Taxes on Income and Profits, Taxes on Property, Taxes on Goods and Services, Taxes on Financial and Capital Transactions, Taxes on International Trade and Transactions and Other Taxes. The revenue recognition policy adopted for each major type of taxation revenue is as follows:

Tax Type	Revenue Recognition Point
Taxes on Income and Profits	<p>1. <u>Income Tax- Individuals (self-assessment)</u></p> <p>Revenue is recognised when the taxable activity takes place based on income tax returns submitted by the taxpayer by 15 October of the following financial year.</p> <p>Any revenue for the current financial year declared after 15 October or relating to prior periods are recognised as revenue in the year that the returns are submitted.</p> <p>Revenue recognised represents the net amount payable by the tax payer after any refund and deduction of any Pay As You Earn (PAYE) or Tax Deduction at Source (TDS).</p>
	<p>2. <u>Income Tax- Companies and Bodies Corporate</u></p> <p>Revenue is recognised when the taxable activity takes place based on tax returns submitted by the entities by 31 October following the end of the financial year. For entities which submit their tax return for the financial year after the 31 October, revenue for that income year is estimated based on the tax return submitted for the previous financial year end.</p> <p>Any revenue relating to prior periods are recognised as revenue in the year of submission of returns.</p>
	<p>3. <u>Pay As You Earn (PAYE) and Tax Deduction at Source (TDS)</u></p> <p>Revenue is recognised in the financial year when the taxable activity takes place based on returns submitted in the current financial year. PAYE and TDS for the month of June submitted up to the cut-off date of 31 July of the following financial year are recognised as revenue in the current financial year.</p> <p>PAYE and TDS relating to any month prior to June that are declared after the end of the current financial year and PAYE/TDS relating to any prior periods are recognised as revenue in the year in which the returns are submitted.</p>

NOTES TO THE FINANCIAL STATEMENTS

Tax Type	Revenue Recognition Point
Taxes on Property	Revenue is recognised on an accrual basis.
Taxes on Goods and Services and Taxes on International Trade and Transactions	<p>1. <u>Value Added Tax (VAT)</u></p> <p>Revenue is recognised in the year when the taxable activity takes place based on returns relating to the current financial year submitted by the taxpayer during the financial year and returns pertaining to the month of June and Quarter April to June submitted by 31 July of the following financial year, net of any repayment.</p> <p>VAT returns for the month of July to May and Quarters July to March declared after financial year end and VAT relating to prior periods are recognised as revenue, net of any repayment in the year in which the returns are submitted.</p>
	<p>2. <u>Custom and Excise Duties and Other taxes collected at Customs</u></p> <p>Revenue is recognised in the financial year when the taxable activity takes place based on the customs declarations submitted at customs.</p>
	<p>3. <u>Betting and Gaming Taxes</u></p> <p>Revenue is recognised when taxes are declared in the tax payers returns during the financial year.</p>
	<p>4. <u>Passenger Fee</u></p> <p>Revenue is recognised when taxes are declared in the tax payers returns during the financial year.</p>
Other Taxes	<p>1. <u>Environment Protection Fee (EPF)</u></p> <p>Revenue is recognised when taxes are declared in the tax payers returns during the financial year.</p>
	<p>2. <u>Advertising Structure Fee and Special Levy on Banks</u></p> <p>Revenue is recognised when taxes are declared in the tax payers returns during the financial year.</p>

Penalties, interests and surcharges arising in relation to taxation are recognised as revenue in the year when these charges are applied.

Revenue on tax assessments not yet settled is recognised in the financial year in which the Assessment, Objection or Appeal is finalized, that is, after the resolution of the dispute. This policy will be reviewed to align to the requirements of relevant IPSAS within the transitional period.

(ii) Transfers

(a) Fines, Penalties and Forfeits

Fines, Penalties and Forfeits are recognised on an accrual basis.

(b) Grants and Aid

Grants and Aid consist of Grants from Foreign Governments, International Organisations and Other General Government Units.

These grants are recognised on an accrual basis.

NOTES TO THE FINANCIAL STATEMENTS

(c) Other Transfers

Other transfers include:

- Transfer of surplus cash balances from statutory bodies and special funds and any contributions made by a party to Government. These are recognised on a cash basis.
- Contribution in respect of Tourism Development Projects on State Lands. These are recognised on cash basis.
- Concessionary Loans
The difference between loan proceeds and the fair value of the loan on initial recognition is recognised as revenue.
- Goods in-kind
Goods in-kind are measured at fair value as at the date of acquisition and recognised on obtaining control of the asset if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Government and can be measured reliably.
- Debt Forgiveness
Debts written off by Development Partners and Donor Agencies are recognised as revenue when the debt no longer meets the definition of a liability.

(iii) Social Contributions

Social Contributions is recognised on an accrual basis.

2.22 Revenue from Exchange Transactions

Revenue from exchange transactions consist of Licences, Finance Income, Dividends, Rent and Royalties, Sales of Goods and Services and Other Revenue.

Revenues are recognised on an accrual basis.

2.23 Expenses

(i) Subsidies and Grants

Subsidies and Grants to Local Authorities, Extra Budgetary Units, Rodrigues Regional Assembly and Other General Government Units are recognised when payments are made.

Contributions to International/Regional Organisations are recognised in the period to which they relate.

(ii) Social Benefits

Social benefits are recognised in the period to which they relate.

NOTES TO THE FINANCIAL STATEMENTS

(iii) Operating Expenses

These are recognised in the period when goods are received or services are rendered.

Operating expenses include leases which are short term, normally for one year and of low value in nature and are expensed in surplus or deficit (Refer to 2.13 Leases).

(iv) Other Expenses

Other expenses, except for other transfer payments are recognised on an accrual basis.

All transfer payments, except those made to Regional/International Organisations and Insurance and Compensation arising out of Government liability are recognised on a cash basis. Transfers made to Regional/International Organisations are recognised in the period when goods are received or services are rendered.

(v) Finance Costs

Finance costs include interest expense on financial liabilities and leases and management charges.

Interest expense on financial liabilities are measured at amortised cost and are recognised using the effective interest rate method.

Interest expense on lease liability is the amount that produces a constant periodic discount rate of interest on the remaining balance of lease liability (Refer to 2.18 Lease Liabilities).

Management charges have been recognised on an accrual basis.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements includes the use of accounting estimates and management assumptions and judgement. It also requires management to exercise its judgement in the process of applying accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant, include, but are not limited to: estimation of Receivables, loss allowance for expected credit losses on Receivables, selection of useful lives and the depreciation/amortisation method for Property Plant and Equipment, Intangible Assets and right-of-use assets, estimating the fair value of certain categories of Property Plant and Equipment, Biological Assets, Investments, actuarial measurement of post-employment benefit obligations, assumptions used in calculating the fair value of Government Debt for which there is no observable market price, assumptions in measuring Loans at amortised cost and expect credit loss on Loans, estimation to compute the value for Financial Guarantee Liabilities and discount rate for the computation of Lease Liabilities. The actual results could differ from those estimates. Changes in estimates are reflected in the period in which they become known.

NOTES TO THE FINANCIAL STATEMENTS

(i) Equity Investments and Redeemable Preference Shares

Fair Value of Equity Investments and Redeemable Preference Shares

The Government uses the following hierarchy for determining and measuring the fair value of investments:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Other techniques for which all inputs are observable and have a significant effect on the recorded fair value, either directly or indirectly; and
- Level 3 – Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The level of fair value measurement used for each category of investment is shown in the table below:

Category	Level	Basis
Quoted Investments	Level 1	Based on market prices of shares on the Stock Exchange of Mauritius as at the end of the financial year.
Unquoted Investments	Level 3	Based on the Net Asset figures from the latest audited financial statements of investees except for Côte d'Or International Racecourse and Entertainment Complex Ltd, ISM Ltd and National Fishing Company Ltd, where their costs have been deemed to be their market value as no audited financial statements are available.
Equity Participation	Level 3	Based on the Net Asset figure from the latest audited financial statements of investees.

NOTES TO THE FINANCIAL STATEMENTS

Category	Level	Basis
Redeemable Preference Shares	Level 3	Based on the value disclosed in the latest audited financial statements of investees.

Methods to determine the fair value of biological assets

The fair value of biological assets has been estimated by the Ministry of Agro Industry and Food Security and Ministry of Blue Economy, Marine Resources, Fisheries and Shipping and is based mainly on market prices (i.e. price set by the Ministry of Agro Industry and Food Security and Ministry of Blue Economy, Marine Resources, Fisheries and Shipping), quantity, weight and height.

Restrictions and pledges for liabilities

During the financial year 2022-2023, there were no biological assets whose title was restricted and there were no restrictions on the Government's use or capacity to sell biological assets.

During the financial year 2022-2023, no biological assets were pledged as security for liabilities.

Contractual Commitments

During the financial year 2022-2023, there were no contractual commitments for the acquisition or development of biological assets.

Financial Risk Management Strategies

The Budgetary Central Government is exposed to financial risks arising from changes in price due to disease and pest risks, climate risks (e.g flood, drought, cyclones), environmental and other risks (e.g fire in forest, thefts, power failure of pumps).

The risk management strategies put in place are as follows:

1. Disease and Pest risks

These are managed by constant monitoring for early detection of diseases and pests and surveillance by veterinary services to avoid propagation.

2. Climate risks

These are managed by planting plants with deep rooted system and suitable to agro climatic conditions and moving from traditional open field cultivation to sheltered farming system.

3. Environmental and Other risks

These are managed by putting standby generators in place to supply electrical power in case of power failure, reporting thefts and having constant watchmanship to ensure security of assets, creating fire breaks to reduce the spread of fire outbreaks.

The plan is a defined benefit arrangement for the employees and it is unfunded.

Weighted average duration of the defined benefit obligations : 13 years
(Calculated as a % change in PV of liabilities for a 1% change in discount rate)

The plan is exposed to actuarial risks such as longevity risk, salary increase risk and pension increase risk.

The cost of providing the benefits is determined using the Projected Unit Method. The principal assumptions used for the purpose of the actuarial valuation were as follows:

NOTES TO THE FINANCIAL STATEMENTS

	30 June 2023	30 June 2022
Discount Rate	5.15%	5.15%
Future Salary Increases	2.50%	2.50%
Future Pension Increases	1.50%	1.50%
Mortality before Retirement	Nil	Nil
Mortality in Retirement	PA (90) Tables rated down by 2 years	
Retirement Age	65 years	

The discount rate is determined by reference to market yields on bonds for the year ended 30 June 2022.

Significant actuarial assumptions for determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analyses below have been determined based reasonably on possible changes of the assumptions occurring as at 30 June 2022.

- If the discount rate would be 100 basis points (one percent) higher (lower), the defined benefit obligations would decrease by Rs 17,144 million (increase by Rs 21,267 million) if all other assumptions were held unchanged.

- If the expected salary growth would increase (decrease) by 1%, the defined benefit obligations would increase by Rs 8,880 million (decrease by Rs 7,590 million) if all assumptions were held unchanged.

- If life expectancy would increase (decrease) by one year, the defined benefit obligations would increase by Rs 4,483 million (decrease by Rs 4,469 million) if all assumptions were held unchanged.

There may be interrelationships between the assumptions, especially between discount rate and expected salary increases, given that both depend to a certain extent on expected inflation rates. The analysis above abstracts from these interdependence between the assumptions.

24. NET ASSETS/EQUITY

The Net Assets/Equity is the net position of the Government after deducting all its liabilities from its assets at end of the year and comprises the following:

- a) Consolidated Fund (Cash basis);
- b) Accumulated (Deficit)/Surplus; and
- c) Special Funds.

The value of Net Assets/Equity of the Government as at 30 June 2023 amounted to Rs 120,740,005,506 (2022 (Restated): Rs 146,073,835,681). The movement in the Net Assets/Equity is provided in Statement AC – Statement of Changes in Net Assets or Equity for the financial year 2022-2023.

(a) Consolidated Fund

Consolidated Fund has been established by Section 103 of the Constitution of the Republic of Mauritius. In accordance with Section 3 of the Finance and Audit Act, the Consolidated Fund has, during the year under review been:

- (i) credited with all the revenues of the Government and all other money properly accruing to it; and
- (ii) charged only with expenses on the authority of warrant issued by the Minister of Finance.

NOTES TO THE FINANCIAL STATEMENTS

According to Section 104(4) of the Constitution and Sections 3(4)(a) and 3(4)(b) of the Finance and Audit Act, the Consolidated Fund should consider the following:

- (a) The cash balance in respect of the Consolidated Fund (excluding Deposits and Special Funds) held at the Bank of Mauritius or in a commercial bank for day to day cash requirements;
- (b) Deposit of money with a bank; and
- (c) Investments with a financial institution, fund or in such securities as may be approved by the Minister.

(b) Accumulated (Deficit)/Surplus

This represents the accumulated deficit to date for the Government after making necessary adjustments for accrual accounting which is provided in Statement AC – Statement of Changes in Net Assets or Equity for the financial year 2022- 2023.

(c) Special Funds

These are monies deposited with the Accountant-General by the various funds set up under the Finance and Audit Act. The total balance of Special Funds as at 30 June 2023 disclosed in Statement H – Statement of Special Funds Deposited with the Accountant-General as at 30 June 2023 amounted to Rs 33,079,580,422 and comprise of fixed deposits at cost and cash balances to the amount of Rs 18,332,000,000 and Rs 14,747,580,422 respectively. Details of Special Funds are provided in Statement H – Statement of Special Funds Deposited with the Accountant-General as at 30 June 2023.

37. TRANSACTIONS WITH INTERNATIONAL FINANCIAL ORGANISATIONS

(i) IMF- Treasury Notes

Pursuant to Section 4(3) of the International Financial Organisations Act, non-interest bearing demand notes have been issued by the Government to the IMF, as part of the Quota subscription of the Republic of Mauritius. The value of the notes as at 30 June 2023 stood at Rs 6,092,370,000 (2022: Rs 5,911,380,000).

(ii) Other International Financial Organisations

Pursuant to Section 4(3) of the International Financial Organisations Act, the Government has also issued non-negotiable securities to the International Development Association. The value of securities as at 30 June 2023 stood at Rs 9,196,738 (2022: Rs 9,196,738).

38. COMPARISON OF BUDGET AND ACTUAL AMOUNTS

The approved budget is in respect of revenue estimates and Government expenditure, both recurrent and capital, appropriated by votes for the financial year 2022-2023. The original estimates of expenditure amounting to Rs 152,000 million (2022: Rs 145,700 million) were passed by the National Assembly on 29 June 2022 and Supplementary Estimates amounting to Rs 5,417 million (2022: Rs 9,500 million) were passed on 12 April 2023.

The Statements AE and AF - Statement of Comparison of Budget Estimates and Actual Amounts for the financial year 2022-2023 are prepared on the same basis as the budget.

(i) Explanation between Original and Total Provisions (Final Budget)

The amounts presented under '*Total Provisions*' in - Statements AE and AF - Statement of Comparison of Budget Estimates and Actual Amounts for the financial year 2022-2023 differed from the original estimates as there was a Supplementary Estimates approved and also funds were transferred or re-allocated in accordance with the Virement Rules.

(ii) Explanation of material differences between Original Estimates and Actual Amounts

The table hereunder provides the explanation for material variances:

Budget line item	Variance amount Rs	Variance percentage	Explanation
Recurrent Revenue	(1,801,297,242)	(1.2%)	The shortfall in recurrent revenue was mainly due to the following: (i) delays in the implementation of grant-funded projects; (ii) lower remittance of surplus cash balance by the Financial Services Commission; and

NOTES TO THE FINANCIAL STATEMENTS

Budget line item	Variance amount Rs	Variance percentage	Explanation
			(iii) lower receipts under Contribution Sociale Généralisée; The lower revenue was partly offset by higher collection from Income Tax and Value Added Tax.
Recurrent Expenditure	3,610,403,136	2.3%	<p>Recurrent expenditure was higher mainly due to:</p> <ul style="list-style-type: none"> (i) increase in employee costs following the award of the 2023 Salary Compensation of Rs 1,000 monthly to employees as from January 2023; higher request from Civil Servants for encashment of their accumulated passage benefits; and payment of overtime; (ii) increase in the prices of medical and laboratory supplies; (iii) increase in interest rates on Government Securities following the surge in Key Rate; (iv) contribution towards the Bus Companies Recovery Account for the provision of subsidy to bus operators on diesel price; (v) increase in grants to Rodrigues Regional Assembly, Local Authorities, Private Secondary Education Authority and Higher Education Commission to enable them to meet their operating costs and other financial obligations. <p>These higher expenditures were partly offset by funds that were appropriated for contingencies as well as underspending on gratuities and basic pensions.</p>
Capital Revenue	161,156,421	9.4%	Capital revenue was higher due to grant received in respect of Metro Express Project.
Capital Expenditure	1,669,069,618	9.1%	<p>Capital expenditure was higher mainly due to transfers to Special Funds namely (i) COVID-19 Projects Development Fund to finance the gap in the subsidy component in connection with the construction of the Social Housing Project; (ii) National Environment and Climate Change Fund for construction of the waterfront project at Deux Frères; and (iii) National Resilience Fund to finance ongoing schemes.</p> <p>These were partly offset by lower expenditure on some capital projects such as construction of roads, hospitals, Mauritius Disciplined Forces Academy and Civil Service College; acquisition of coastal radar surveillance system and geotechnical equipment; pipe replacement and water distribution programme; and other projects</p>

NOTES TO THE FINANCIAL STATEMENTS

Budget line item	Variance amount Rs	Variance percentage	Explanation
			implemented by the Rodrigues Regional Assembly and Local Authorities.
Net Acquisition of Financial Assets	20,525,237,330	107%	The increase in net acquisition of financial assets was due to delays in the disposal of shares held by Government in certain companies. This was partly offset by lower equity injection in connection with the implementation of Metro Express Project and Sewerage projects.

NOTES TO THE FINANCIAL STATEMENTS

39. PRIOR YEAR ADJUSTMENTS

Prior year adjustments are required as a result of (i) changes in the accounting basis, following the adoption of IPSAS 33 – First-time Adoption of Accrual Basis IPSASs, and (ii) reclassifications of certain amounts presented.

These adjustments have been made to the carrying amounts of items presented in the Statement A - Statement of Financial Position as at 30 June 2023 and Statement AC - Statement of Changes in Net Assets or Equity for the financial year 2022-2023. These changes have also resulted in the restatement of certain amounts presented in the Statements AA and AB - Statement of Financial Performance for the financial year 2022-2023.

(i) Receivables from Exchange Transactions

Receivables from Exchange Transactions was overstated by Rs 127,637,176 in the financial year 2021-2022. The amount of Rs 127,637,176 includes a balance of Rs 126,521,276 with regard to adjustment to recognising loans at amortised cost and an amount of Rs 1,115,900 in respect of expected credit losses for the financial year 2021-2022. In this respect, relevant adjustments have been made to restate the comparative figures. An adjustment of Rs 904,830,751 was made relating to the transfer of arrears interest from receivables to loans for the financial year 2020-2021. An amount of Rs 2,463,263 in respect of loss allowance on receivables has been recognised for the financial year 2020-2021.

(ii) Loans and Advances

Loans have been recognised at amortised cost instead of cost for the first time in the financial statements for the year ended 30 June 2023. In this respect, the prior year figures have been restated retrospectively by Rs 787,763,401 and Rs 422,468,180 for the financial year 2020-2021 and 2021-2022, respectively. The amount of Rs 787,763,401 includes a balance of Rs 746,523,327 with regard to adjustment to recognising loans at amortised cost for the financial year 2020-2021 and an amount of Rs 124,745,888 in respect of expected credit losses has been recognised for the first time for the financial year 2020-2021.

(iii) Leases

During the financial year 2022-2023, the Government has made early adoption of IPSAS 43-Leases. This has resulted in restatement of comparative figures for the first-time recognition of right-of-use assets amounting to Rs 9,646,533,587 and Lease Liabilities amounting to Rs 11,456,743,848. The difference between the amount recognised for right-of-use assets and Lease Liabilities has impacted on the Accumulated (deficit)/surplus.

The new accounting policies provide a fair presentation and more relevant information in accordance with international best practice.

NOTES TO THE FINANCIAL STATEMENTS

B. FINANCIAL RISK MANAGEMENT

Government activities are exposed to various risks comprising mainly interest rate risk, foreign exchange risk, liquidity risk and refinancing risk. Given that there is a trade-off between cost and risk, Government's debt management strategy aims at minimising the cost of the debt portfolio within an acceptable level of risk. The main risks as well as the risk management policies are set out below:

(i) Interest Rate Risk

Government is exposed to interest rate risk as the rate of interest might increase resulting in additional costs. In relation to Domestic Debt, almost 97% of Government Securities have been issued at a fixed rate of interest.

With regard to Government External Debt, the share of variable interest rate loans represented 54.4% of the total External Debt as at 30 June 2023 (2022: 46.9%). During financial year 2022-2023, Government Securities provided as collateral by local banks to foreign institutions which were previously classified under External Debt have now been reclassified under Domestic Debt as these are still held by local banks rather than foreign financial institutions.

To mitigate the above risk, the strategy in place is to have a nearly balanced mix of fixed and variable interest rate loans over the medium term. Accordingly, preference is being given to contract new loans at a fixed interest rate.

Interest Rate Sensitivity Analysis

Government is exposed to interest rate risk as interest rates in relation to inflation-indexed bonds (assuming changes in interest and inflation rate are correlated) and variable interest rate external debts may change. The table below details the sensitivity analysis to a 10 basis points (bp) increase and decrease in the interest rate:

	Increase/Decrease	Year Ended	Year Ended
	Basis Points	30 June 2023	30 June 2022
		Rs Million	Rs Million
Government Debt:			
<u>Inflation-Indexed Bonds:</u>			
<u>(Excluding those classified under External Debt)</u>			
Impact on Surplus or Deficit	+10 bp	+10	+10
Impact on Surplus or Deficit	-10 bp	-10	-10
<u>External Debt:</u>			
Impact on Surplus or Deficit	+10 bp	+46	+34
Impact on Surplus or Deficit	-10 bp	-46	-34

Based on the above table, it can be noted that an increase/decrease of 10 basis points in interest rates would result in an increase/decrease in the interest payments by about Rs 56 million for the financial year 2022-2023 (2021-2022: Rs 44 million).

NOTES TO THE FINANCIAL STATEMENTS

(ii) Foreign Exchange Risk

Exposure to exchange rate risks arise as transactions denominated in foreign currencies are undertaken by Government. The strategy has been to minimise exposures to exchange rate risks by having greater recourse to domestic financing and to align the currency composition of public sector external debt to that of export earnings of the country.

Accordingly, the share of External Debt in Government debt portfolio stood at 18.7% at 30 June 2023 (Based on nominal value) (2022: 17.8%). The currency composition of foreign debt has also been diversified. In addition, the foreign currency risk is mitigated by maintaining bank accounts denominated in foreign currencies.

Foreign Currency Sensitivity Analysis

The table below details the sensitivity analysis regarding the impact of a 5 % increase or decrease in exchange rates:

	Increase/ Decrease	Year ended 30 June 2023	Year ended 30 June 2022 (Restated) [N1]
	%	Rs Million	Rs Million
Impact on (deficit)/surplus (Appreciation of MUR)	+5%	+4,195	+3,658
Impact on (deficit)/surplus (Depreciation of MUR)	-5%	-4,195	-3,658

N1: Foreign Currency Sensitivity Analysis has been restated to include Domestic debt held in foreign currency.

As per the above table, an appreciation/depreciation of MUR by 5% against all foreign currencies in which external debt has been contracted would increase/decrease (deficit)/surplus by Rs 4,195 million for financial year 2022-2023 (2021-2022 (Restated): Rs 3,658 million).

(iii) Liquidity Risk

Liquidity risk refers to the risk that Government will encounter difficulty in meeting its financial obligations when they fall due. The liquidity risk for Government is managed and mitigated by having an efficient and effective cash flow forecasting system that ensures adequacy of cash resources to meet all Government obligations as and when they fall due.

(iv) Refinancing Risk

Refinancing or rollover risk is the risk that redemptions of securities will be concentrated over the shorter term or in a particular year which might affect the refinancing ability of Government. To mitigate refinancing risk, actions have been taken to gradually move towards instruments with longer term.

The average time to maturity of Domestic Debt has increased from 5.1 years at 30 June 2022 to 5.3 years at 30 June 2023.

Concerning External Debt, the majority of the loans are contracted with a term of 15 to 20 years and include a moratorium of 5 years on capital repayment. Compared to Government securities which are redeemable as a bullet payment on maturity date, External Debts are repayable on a semi-annual or annual basis. Therefore, the refinancing risk for External Debts is quite low.

NOTES TO THE FINANCIAL STATEMENTS

45. SHORT-TERM LEASE

The outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due within one year, amount to Rs 51,443,336.

46. NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Non-Current Assets Held for Sale

During the financial year 2022-2023, the Ministry of Environment, Solid Waste Management and Climate Change (Solid and Hazardous Waste and Beach Management Division) classified assets as held for sale on 19 June 2023 due to obsolescence.

Since these assets were fully depreciated, they had a nil carrying amount on 30 June 2023 while on the same date their fair values less costs to sell were estimated at Rs 79,000. Therefore, the value of non-current assets held for sale for the financial year 2022-2023 is negligible.

Discontinued Operations

During the financial year 2022-2023, there were no known discontinued operations.

47. RELATED PARTY TRANSACTIONS

(i) Key Management Personnel

Related parties include key management personnel. The key management personnel are the Ministers who constitute the governing body of the Government of Mauritius. The key management personnel also include Accounting Officers and Senior Management (not below the grade of Permanent Secretary) who have the authority and responsibility for planning, directing and controlling the activities of the Government.

The aggregate remuneration paid to key management personnel includes Annual Allowance, Basic Salary, Salary Compensation, Extra Remuneration, Allowances, Extra Assistance, Cash in lieu of Leave, Facilities Allowance to Honourable Members, End-of-year Bonus, Travelling and Transport, Overtime, Passage benefits, Allowance in lieu of passages amongst others. These remunerations are as per the recommendation of the PRB Report 2021.

Key management personnel are also entitled to post-employment benefits and these are included in Employee Benefit Obligations.

(ii) Related Parties

All transactions between related parties are on normal terms and conditions. Accordingly, there is no separate related party transaction to be disclosed.

48. CONTINGENT ASSETS

As at 30 June 2023, there were no known contingent assets to be disclosed.

NOTES TO THE FINANCIAL STATEMENTS

49. CONTINGENT LIABILITIES

As at 30 June 2023, there were no known contingent liabilities to be disclosed. Contingent liabilities (as disclosed in Statement L - Statement of Contingent Liabilities including details of any Loans, Bank Overdrafts or Credit Facilities Guaranteed by Government as at 30 June 2023) in relation to Loans, Bank Overdrafts or Credit Facilities Guaranteed by Government have been recognised as Financial Guarantee Liabilities in Statement A - Statement of Financial Position as at 30 June 2023. Refer to Note 21 - Financial Guarantee Liabilities for more details.

50. MANAGING CAPITAL

Government's capital, represented by the Net Assets/Equity in Statement of Financial Position, comprise the balance of the Consolidated Fund, Accumulated Surplus/Deficit and monies deposited with the Government by various funds set up under the Finance and Audit Act. The overall objective in the management of capital is to maximise net assets by implementing coherent fiscal policies and an effective debt management strategy.

In this context, in financial year 2022-2023 Government pursued the following main fiscal policies: (i) recovery of arrears of revenue and enhancing tax administration to improve collections; (ii) introduction of new revenue raising measures; (iii) review of low impact programmes to improve efficiency and eliminate wastages; and (iv) restructuring of public bodies to reduce their dependence on the National Budget.

In addition, Government adopted a debt management strategy aimed at minimising the cost of the debt portfolio while maintaining risks at an acceptable level. The debt profile was improved to contain exposure to foreign exchange rate risks and reduce refinancing risks.

Information on the fiscal policies and debt management strategy of Government can be found in the 2022-2023 Budget Estimates document.

Note:

N1 The fair value has been determined as follows:

- (i) Quoted Shares are based on their market prices on the Stock Exchange of Mauritius as at the end of the financial year.
- (ii) Unquoted Shares and Equity Participation are based on the Net Asset figure from the latest audited financial statements of investees, except for Côte d'Or International Racecourse and Entertainment Complex Ltd, ISM Mauritius Ltd and National Fishing Company Ltd, whereby their costs have been deemed to be their fair value as no audited financial statements are available.
In respect of foreign investments, the net asset figure has been translated at the exchange rate prevailing at 30 June 2023.
- (iii) Other Investments - amortised cost taking into consideration interest receivable at year end.

N2 Cost or part of cost has been determined based on Nominal Value/Book Value/Net Asset Value upon capitalisation of dividend.

Other Information:

- (i) Investments denominated in foreign currencies are translated at year end exchange rate.

Notes:

N1: Total Debt of BCG, except for Silver Bonds and IMF SDR Allocations, has been recognised in Statement A - Statement of Financial Position at amortised cost using Effective Interest Rate.

N2: Government Securities provided as collateral by local banks to foreign institutions which were previously classified under BCG External Debt are now being reclassified under BCG Domestic Debt as these are still held by local banks rather than foreign financial institutions.

N3: Public Sector Debt is presented on a consolidated basis whereby inter-sectoral and intra-sectoral transactions within the public sector are eliminated. In this respect, loans contracted by PC and EBU from BCG and vice versa are netted out from outstanding debt positions. Details of the loans contracted by PC and EBU from BCG are reported in Statement M - Statement of all Outstanding Loans financed from Revenue.

N4: The Debt of EBU, Central Government Debt, General Government Debt and PC are before consolidation adjustments.

N5: The Public Sector Debt excludes consolidation adjustments on Financial Public Sector Entities, National Pensions Fund and Employees Welfare Fund.
